

Contents

Preface.....	vii
Contributors.....	ix
Chapter 1 An introduction to images and image analysis.....	1
<i>Michael P. Pound and Andrew P. French</i>	
Chapter 2 Image analysis for plants: Basic procedures and techniques	25
<i>Yasuomi Ibaraki and S. Dutta Gupta</i>	
Chapter 3 Applications of RGB color imaging in plants.....	41
<i>S. Dutta Gupta, Yasuomi Ibaraki, and P. Trivedi</i>	
Chapter 4 RGB imaging for the determination of the nitrogen content in plants.....	63
<i>Gloria Flor Mata-Donjuan, Adán Mercado-Luna, and Enrique Rico-García</i>	
Chapter 5 Sterile dynamic measurement of the in vitro nitrogen use efficiency of plantlets.....	77
<i>Yanyou Wu and Kaiyan Zhang</i>	
Chapter 6 Noninvasive measurement of in vitro growth of plantlets by image analysis	115
<i>Yanyou Wu and Kaiyan Zhang</i>	
Chapter 7 Digital imaging of seed germination	147
<i>Didier Demilly, Sylvie Ducournau, Marie-Hélène Wagner, and Carolyne Dürr</i>	

Chapter 8	Thermal imaging for evaluation of seedling growth	165
	<i>Étienne Belin, David Rousseau, Landry Benoit, Didier Demilly, Sylvie Ducournau, François Chapeau-Blondeau, and Carolyne Dürr</i>	
Chapter 9	Anatomofunctional bimodality imaging for plant phenotyping: An insight through depth imaging coupled to thermal imaging.....	179
	<i>Yann Chéné, Étienne Belin, François Chapeau-Blondeau, Valérie Caffier, Tristan Boureau, and David Rousseau</i>	
Chapter 10	Chlorophyll fluorescence imaging for plant health monitoring.....	207
	<i>Kotaro Takayama</i>	
Chapter 11	PRI imaging and image-based estimation of light intensity distribution on plant canopy surfaces	229
	<i>Yasuomi Ibaraki and S. Dutta Gupta</i>	
Chapter 12	ROS and NOS imaging using microscopical techniques	245
	<i>Nieves Fernandez-Garcia and Enrique Olmos</i>	
Chapter 13	Fluorescent ROS probes in imaging leaves.....	265
	<i>Éva Hideg and Ferhan Ayaydin</i>	
Chapter 14	Analysis of root growth using image analysis.....	279
	<i>Andrew P. French and Michael P. Pound</i>	
Chapter 15	Advances in imaging methods on plant chromosomes	299
	<i>Toshiyuki Wako, Seiji Kato, Nobuko Ohmido, and Kiichi Fukui</i>	
Chapter 16	Machine vision in estimation of fruit crop yield.....	329
	<i>A. Payne and K. Walsh</i>	
Index		375
