

Contents

Preface	v
1. Introduction to Glycobiology and Human Diseases <i>Gherman Wiederschain</i>	1
2. Structural Analysis of Glycosaminoglycans—An Indispensable Tool for the Diagnosis, Treatment and Prevention of Human Disease <i>Christian Heiss and Parastoo Azadi</i>	28
3. Identifying Urinary Glycans is a Suitable Approach for the Diagnosis of Lysosomal Storage Diseases <i>Cees Bruggink, Jeffrey S. Rohrer and Manfred Wuhrer</i>	65
4. Glycosaminoglycan Binding by the Lyme Disease Spirochete is a Determinant of Tissue Tropism and Disease <i>Yi-Pin Lin, Marcia S. Osburne, Michael J. Pereira, Jenifer Coburn and John M. Leong</i>	86
5. The Role of Viral Envelope Protein Glycosylation in Pathogenesis of Influenza A Virus <i>Kevan L. Hartshorn</i>	97
6. Application of Lectin Histochemistry for the Diagnosis of Lysosomal Storage Diseases <i>Joseph Alroy, Min Fang, Andrew G. Plaut and Gary Sahagian</i>	109
7. Computational Approaches for Studying Carbohydrate-Lectin Interactions in Infection <i>Tamir Dingjan, Elizabeth Yuriev and Paul A. Ramsland</i>	129
8. Altered Sialylation of Glycoproteins and Its Impact on Disease Pathogenesis <i>Ida Annunziata and Alessandra d'Azzo</i>	148
9. Role of Glycosylation in TOLL-like Receptor Activation and Pro-inflammatory Responses <i>Schammim Ray Amith, Samar Abdulkhalek and Myron R. Szezewczuk</i>	165
10. Novel Insights on Sialyltransferase Regulators of Cancer-associated O-glycans <i>Charles J. Dimitroff</i>	185
11. Pectins as Biological Modulators of Human Physiological Reactions <i>Sergey V. Popov</i>	202
12. Glycobiology of Human Milk in Health and Disease <i>Yingying He and David S. Newburg</i>	223
13. Molecular Mechanisms Underlying the Association between Gaucher Disease and Parkinson's Disease <i>Gali Maor and Mia Horowitz</i>	241

14. Differential Expression and Function of Linear and Branched Polylactosamine N-linked Glycans in the Nervous System	250
<i>Gerald A. Schwarting</i>	
15. Immunoglobulin Glycosylation in Health and Disease	269
<i>Michelle E. Conroy and Robert M. Anthony</i>	
16. Congenital Disorders of Glycosylation	284
<i>Susan E. Sparks</i>	
17. Antibodies to Hyaluronic Acid in Preeclampsia	313
<i>M.M. Ziganshina, N.V. Shilova, N.R. Khasbiullina, M.E. Navakouski, M.A. Nikolaeva, N.E. Kan, O.V. Vavina, A.V. Nikolaeva, V.L. Tyutyunnik, N.V. Tyutyunnik, I. Bot, G.T. Sukhikh and N.V. Bovin</i>	
Index	323
