Preface.....	ix
Acknowledgments.....	xi
Editor.....	xiii
Contributors.....	xv

Section I: Introduction to marine glycobiology

Chapter 1 Introduction to marine glycobiology	3
<i>Se-Kwon Kim and Jayachandran Venkatesan</i>	
Chapter 2 Glycoscience: The current state of the research.....	7
<i>Ozcan Konur</i>	

Section II: Marine glycoconjugates of reproduction and chemical communications

Chapter 3 Marine glycoconjugates in gamete physiology and fertilization	25
<i>Alessandra Gallo</i>	
Chapter 4 Heparin from marine mollusks: Occurrence, structure, and biological role.....	39
<i>Nicola Volpi and Francesca Maccari</i>	

Section III: Marine glycans

Chapter 5 Bioactivity and mechanism of action of marine glycans.....	51
<i>Visamsetti Amarendra and Ramachandran Sarojini Santhosh</i>	
Chapter 6 Marine glycans in relationship with probiotic microorganisms to improve human and animal health.....	67
<i>Van Duy Nguyen</i>	
Chapter 7 Principle and biological properties of sulfated polysaccharides from seaweed	85
<i>Jantana Praiboon, Anong Chirapart, and Nattanun Soisarp</i>	

Section IV: Marine glycoproteins

Chapter 8 Biomedical benefits of algal glycoproteins.....	121
<i>Hari Eko Irianto and Ariyanti Suhita Dewi</i>	
Chapter 9 Partial sequencing, structural characterization, and anticoagulant activity of heparan sulfate and sulfated chitosan from selected Indian marine mollusks.....	129
<i>Ramachandran Saravanan, Ramachandran Karthik, and Annian Shanmugam</i>	

Chapter 10	Biomedical potential of natural glycoproteins with special reference to marine collagen.....	145
	<i>Anguchamy Veeruraj, Muthuvel Arumugam, Thipramalai Thankappan Ajithkumar, and Thangavel Balasubramanian</i>	
Chapter 11	Glycoproteins and detoxification in the marine environment	161
	<i>Graciela Guerra-Rivas and Claudia Mariana Gomez-Gutierrez</i>	
Chapter 12	Recent trends in bioprospecting of marine collagen.....	169
	<i>Kirti and Samanta S. Khora</i>	
Chapter 13	Marine fungi: Glycolipidomics.....	183
	<i>Kandasamy Saravanakumar, Kandasamy Kathiresan, Narayanasamy Rajendran, Chuanjin Yu, and Jie Chen</i>	
Section V: Marine glycoenzymes		
Chapter 14	Sialyltransferases from marine environments: Preparation of sialyloligosaccharides and its application	195
	<i>Takeshi Yamamoto</i>	
Section VI: Marine carbohydrates		
Chapter 15	Polysaccharides from marine sources and their pharmaceutical approaches	209
	<i>Sougata Jana, Arijit Gandhi, and Subrata Jana</i>	
Chapter 16	Pharmaceutical importance of marine algal-derived carbohydrates	227
	<i>Ratih Pangestuti, Se-Kwon Kim</i>	
Chapter 17	Marine bacterial exopolysaccharides: Functional diversity and prospects in environmental restoration.....	235
	<i>Jaya Chakraborty, Neelam Mangwani, HIRAK R. DASH, SUPRIYA KUMARI, HIMANSHU KUMAR, and SURAJIT DAS</i>	
Chapter 18	Agar-abundant marine carbohydrate from seaweeds in Indonesia: Production, bioactivity, and utilization	255
	<i>Syamdidi, Hari Eko Irianto and Giyatmi Irianto</i>	
Chapter 19	Bioprospecting potential of marine natural polymers of chitin and chitosan	263
	<i>Anguchamy Veeruraj, Muthuvel Arumugam, Thipramalai Thankappan Ajithkumar, and Thangavel Balasubramanian</i>	
Chapter 20	Bioactivities of sulfated polysaccharide porphyran isolated from edible red alga <i>Porphyra yezoensis</i>.....	279
	<i>Zedong Jiang and Tatsuya Oda</i>	
Chapter 21	Marine polysaccharides as biostimulants of plant growth.....	293
	<i>Izabela Michalak, Agnieszka Dmytryk, Katarzyna Godlewska, Radostaw Wilk, and Katarzyna Chojnacka</i>	
Chapter 22	Carbohydrates in drug discovery: Insights into sulfated marine polysaccharides	311
	<i>Jeyakumar Kandasamy and Sabiah Shahul Hameed</i>	
Chapter 23	Cyanobacterial extracellular polysaccharide sheath pigment, scytonemin: A novel multipurpose pharmacophore.....	323
	<i>Jainendra Pathak, Rajneesh, Richa, Arun S. Sonker, Vinod K. Kannaujiya, and Rajeshwar P. Sinha</i>	
Chapter 24	Biomedical application of carbohydrates from marine microbes	339
	<i>Kannan Kamala, Pitchiah Sivaperumal, and Elangovan Dilipan</i>	
Chapter 25	Antimicrobial properties of chitosan and chitosan derivatives.....	345
	<i>Priyanka Sahariah, Martha Á. Hjálmsdóttir, and Már Másson</i>	

Chapter 26	Marine bacterial extracellular polymeric substances: Characteristics and applications	369
	<i>Vijay Kumar Singh, Avinash Mishra, and Bhavanath Jha</i>	
Chapter 27	Brown algal polysaccharide: Alginate and its biotechnological perspectives	379
	<i>Vasuki Subramanian, Perumal Anantharaman, and Kandasamy Kathiresan</i>	
Chapter 28	Mangroves: A potent source of polysaccharides	393
	<i>Narayanasamy Rajendran, Kandasamy Saravanakumar, and Kandasamy Kathiresan</i>	
Chapter 29	It's all about the marine carbohydrates	403
	<i>Thangapandi Marudhupandi, Radhika Rajasree Santha Ravindranath, and Dhinakaranamy Inbakandan</i>	
Section VII: Bioinformatics of glycobiology		
Chapter 30	Glycans predictive modeling using modern algorithms	417
	<i>Imran Ahmad and Athapol Noomhorm</i>	
Section VIII: Biological role of glycoconjugates		
Chapter 31	Glyco-conjugated bioactive compounds derived from brown algae and its biological applications	425
	<i>Bakrudeen Ali Ahmed, Abdul Shirin Alijani, and Reza Farzinebrahimi</i>	
Section IX: Glycoconjugates in biomedicine and biotechnology		
Chapter 32	D-Glucosamine contributes to cell membrane stability	439
	<i>Yoshihiko Hayashi, Kei Kaida, Kazunari Igawa, Shizuka Yamada, Takeshi Ikeda, and Kajiyo Yanagiguchi</i>	
Chapter 33	Structural glycobiology for lectin to promote advanced biomedical research.....	445
	<i>Imtiaj Hasan, Yuki Fujii, Sarkar M.A. Kawsar, Sultana Rajia, Shigeki Sugawara, Masahiro Hosono, Yukiko Ogawa, Yasushi Kawakami, Yasuhiro Koide, Daiki Yamamoto, Robert A. Kanaly, and Yasuhiro Ozeki</i>	
Chapter 34	Chitin derivatives as functional foods	459
	<i>Kazuo Azuma, Shinsuke Ifuku, Tomohiro Osaki, Hiroyuki Saimoto, and Yoshiharu Okamoto</i>	
Chapter 35	Marine carbohydrates and their applications	469
	<i>Bishnu Pada Chatterjee and Partha Pratim Bose</i>	
Chapter 36	Glycobiotechnology	477
	<i>Ramachandran Sarojini Santhosh, Visamsetti Amarendra, Dharmalingam Gowdhaman, and Nallthambi Tamilkumar Varsha</i>	
Chapter 37	Application of bacterial chitinase.....	493
	<i>Siswa Setyahadi</i>	
Chapter 38	Biological activity of marine sponge lectins	503
	<i>Partha Pratim Bose, Urmimala Chatterjee, and Bishnu Pada Chatterjee</i>	
Index		513
