

Contents

<i>Dedication</i>	v
<i>Preface</i>	vii
1. Hexapods and Water: An Introduction to Aquatic Insects and Collembolans	1
2. General Classifications of Water Bodies Inhabited by Hexapods	28
3. Life on the Surface Tension	52
4. Herbivorous Insects on Aquatic Plants	67
5. Hexapods on the Roots and Rhizoids Beneath the Pseudoterrestrialium	79
6. Active Submerged Hunters of Microorganisms and Small Prey in Lentic Water	93
7. Insects that Construct Underwater Shelters	106
8. Ambushers in Streams	119
9. Underwater Tunnel-Diggers, Aquatic Crickets, and Swimming Grasshoppers	128
10. Insects Inhabiting Rainwater	135
11. Hexapods in Mosses and Lichens	141
12. Insects of Phytotelmata	150
13. Insect Fauna Living in Insectivorous Plants	160
14. Aquatic Hexapods Active on Ice and Snow	167
15. Adults that do not Eat	179
16. Life in Water Without Oxygen	188
17. Insects on the High Seas	199
18. Marine Littoral Hexapods	208
19. Living in Hypersaline Water	222
20. Petroleum Flies	230
21. Larvae that Live in Sponges	235
22. Parasitoid Larvae in Aquatic Insects	239
