

Contents

<i>Preface</i>	v
1. Neurons—Nerve Cells	1
<i>Fang Liu, Tucker A. Patterson, Jingshu Zhang, Merle G. Paule, William Slikker, Jr. and Cheng Wang</i>	
2. Astrocytes	14
<i>Cheng Wang, Qi Yin, Shuliang Liu, Xuan Zhang, Fang Liu, Jingshu Zhang, Tucker A. Patterson, Merle G. Paule and William Slikker, Jr.</i>	
3. Oligodendrocytes [Myelin-related Glial Cells in the Central Nervous System (CNS)]	26
<i>Shuliang Liu, Merle G. Paule, Fang Liu, Qi Yin, Tucker A. Patterson, William Slikker, Jr. and Cheng Wang</i>	
4. Schwann Cells	44
<i>Xuan Zhang, Tucker A. Patterson, Merle G. Paule, Cheng Wang and William Slikker, Jr.</i>	
5. Neuroendocrine Cells	58
<i>Zhen He, Sherry A. Ferguson, Tucker A. Patterson and Merle G. Paule</i>	
6. Neural Stem Cells in the Adult Brain: Altered Activity in Aging, Alzheimer's Disease, Mood Disorders and Epilepsy	86
<i>Ashok K. Shetty and Bharathi Hattiangady</i>	
7. Neural Stem Cells and Transplantation	125
<i>Malathi Srivatsan</i>	
8. 3D <i>in vitro</i> Models for Developmental Neurotoxicity (DNT)	146
<i>Luc Stoppini, Jenny Sandström von Tobel, Igor Charvet, Marie-Gabrielle Zurich, Lars Sundstrom and Florianne Monnet-Tschudi</i>	
9. Neural Cell Lines (Lineage)	169
<i>Qiang Gu</i>	
10. Advanced Cell Techniques to Study Developmental Neurobiology and Toxicology	187
<i>Thomas Hartung, Helena T. Hogberg, Marcel Leist, David Pamies and Lena Smirnova</i>	

11. Anesthesia and Neural Plasticity	218
<i>Laszlo Vutskits</i>	
12. Blood-Brain Barrier (BBB)	238
<i>Balabhaskar Prabhakarpandian, Syed Ali and Kapil Pant</i>	
13. Neurotrophins and Alzheimer's Disease	262
<i>Jyotshna Kanungo</i>	
14. Neurotransmitters and Receptors	282
<i>Vesna Jevtovic-Todorovic</i>	
15. Neuronal Ion Channels	305
<i>Slobodan M. Todorovic</i>	
16. Brain Injury-Neuroprotection	322
<i>Koichi Yuki, Mary Ellen McCann and Sulpicio G. Soriano</i>	
Index	337
