

Contents

Series Preface.....	vii
Acknowledgments.....	ix
Introduction and Preview.....	xi
Author	xxi
 Chapter 1 The Evolutionary Turn in Comparative Anatomy.....	1
Carl Gegenbaur's Idealistic Morphology	1
Haeckel's Assault on Idealistic Morphology	12
The Gegenbaur Transformation	25
 Chapter 2 Of Parts and Wholes	35
<i>Beobachtung und Reflexion</i>	35
Single Cause, Complex Effect.....	38
Levels and Modes of Individuality.....	41
Species, Individuals, History, and Reality	43
Changing Metaphors of Order in Nature: The Ladder, The Tree, and The Web	48
Monophyly: The Evolution of Species and Languages	56
Reaching Out Beyond Jena.....	61
 Chapter 3 The Turn against Haeckel.....	67
The Poverty of Systematics	67
Hailing from the Hinterland.....	81
Logic Meets History.....	87
Plato's Turntable	92
Biological Fragments Concerning an Understanding of Man.....	97
Limits of Scientific Knowledge.....	103
 Chapter 4 The Rise of Holism in German Biology	107
The Cell State.....	107
The Struggle among the Parts	113
Glass Half Full or Half Empty?	119
Mechanics and Biology	127
Animal Psychology and <i>Umwelt</i>	135
The Congress in Prague	143

Chapter 5	The Rise of German ("Aryan") Biology.....	149
	A Time of Crisis.....	149
	The Rebirth of Science in a Goethean Spirit	152
	Science in the Name of the <i>Volk</i>	168
	Deutsche Biologie.....	176
Chapter 6	<i>Ganzheitsbiologie</i>	187
	Enkapsis: Hierarchically Structured Complex Wholes.....	187
	Bridging from Anatomy to Ecology.....	195
	Singing the Praises of Forests and Lakes.....	197
	Bringing Fossils to Life.....	217
	Grotesquely Grandiose: The Evolutionary Synthesis in <i>Völkisch</i> Spirit.....	230
Chapter 7	The Ideological Instrumentalization of Biology	243
	The Reconstruction of Ernst Haeckel	243
	The Deconstruction of Ernst Lehmann.....	253
	Pioneers of Phylogenetic Systematics: Their Battle against Idealistic Morphology	265
Chapter 8	A New Beginning: From Speciation to Phylogenetics	281
	The Stresemann School.....	281
	The Berlin School Branches Out to Dresden	292
	Willi Hennig.....	297
	A Prospectus for Phylogenetic Systematics	299
Chapter 9	<i>Grundzüge</i> : The Conceptual Foundations of Phylogenetic Systematics.....	303
	Systematics—"Speziesmacherei" or a True Science?	303
	The Empirical Base of Phylogenetic Systematics	307
	Phylogenetic Hierarchy	312
	The Cladogram.....	316
	Heterobathmy of Characters	320
Epilogue		323
