

Contents

Foreword	v
Preface	vii
List of Contributors	xvii

Section 1 Cellular Model Systems

1. Allelopathy and Plant Cell Diagnostics <i>S.S. Narwal and V.V. Roshchina</i>	3
2. Cellular Models as Biosensors <i>V.V. Roshchina</i>	5
3. Microalgae for Determining the Effects of Allelochemicals <i>C. Ciniglia, G. Pinto, A. Pollio, G. Aliotta and P. Fergola</i>	23
4. Bryophytes to Test Allelochemicals <i>in vitro</i> <i>S. Giordano</i>	41

Section 2 New Methods of Microscopy in Cellular Diagnostics

5. Microscopic Methods to Study Morpho-cytological Events during the Seed Germination <i>G. Aliotta, G. Cafiero and M. Petriccione</i>	53
6. Optical Coherence Tomography and Optical Coherence Microscopy to Monitor Water Absorption <i>V.V. Sapozhnikova, I.S. Kutis, S.D. Kutis, R.V. Kuranov, G.V. Gelikonov, D.Y. Shabanov and V.A. Kamensky.</i>	71
7. Optical Coherence Microscopy: Study of Plant Secretory Structures <i>V.V., Roshchina, I.S. Kutis, L.M. Kutis, G.V. Gelikonov and V.A. Kamensky</i>	87

8. Laser-scanning Confocal Microscopy (LSCM):
Study of Plant Secretory Cell 93
V.V. Roshchina, V.A. Yashin, A.V. Kononov and A.V. Yashina
9. Luminescent Cell Analysis in Allelopathy 103
V.V. Roshchina

Section 3 Methods of Analytical Biochemistry and Biophysics

10. Biochemical Approach to Study Oxidative Damage in
Plants Exposed to Allelochemical Stress: A Case Study 117
R. Cruz-Ortega and A. L. Anaya
11. Cholinesterase Activity as a Biosensor Reaction for Natural
Allelochemicals: Pesticides and Pharmaceuticals 127
A. Y. Budantsev and V.V. Roshchina
12. Methods to Study Effect of Allelochemicals on
Algae Membrane Integrity 147
F.M. Li and H.Y. Hu
13. Total Phenolics and Phenolic Acids in Plants and Soils 155
Djurdjevic L., M. Mitrovic and P. Pavlovic
14. Computational Methods to Study Properties of
Allelochemicals and Modelling of
Molecular Interactions in Allelopathy 169
E. Lo Piparo, P. Mazzatorta and E. Benfenati
15. Allelopathic Pollen: Isolating the Allelopathic Effects 185
S.D. Murphy
- Index 199
