Preface

v

I. Specific Adipokines

1. Acylation Stimulating Protein (ASP) as an Adipokine	3
<i>Thea Scantlebury-Manning</i>	
2. Adiponectin as an Adipokine	12
<i>Zhikui Wei and G. William Wong</i>	
3. Adipsin as an Adipokine	20
<i>Yu-Feng Zhao and Chen Chen</i>	
4. Adrenomedullin as a Cytokine	29
<i>Alexis Elias Malavazos and Gianluca Iacobellis</i>	
5. Angiotensinogen as an Adipokine	37
<i>Miki Nagase and Toshiro Fujita</i>	
6. Apelin as an Adipokine	45
<i>Despina D. Briana and Ariadne Malamitsi-Puchner</i>	
7. C1q/TNF-related Proteins (CTRPs) as Adipokines	52
<i>Jonathan M. Peterson and G. William Wong</i>	
8. Fasting-induced Adipose Factor/Angiopoietin-like Protein 4 as an Adipokine	60
<i>Sander Kersten</i>	
9. Interleukins as Adipokines	68
<i>Kirsten Prüfer Stone</i>	
10. Leptin as an Adipokine: Important Definitions and Applications for Cancer Research	77
<i>Barbara Stadterman, Anna Lokshin, Robert P. Edwards and Faina Linkov</i>	
11. Omentin as an Adipokine: Role in Health and Disease	84
<i>Anne M. Lenz and Frank Diamond</i>	

12. Plasminogen Activator Inhibitor 1 (Pai-1) as an Adipokine	93
<i>Francis Agyemang-Yeboah</i>	
13. Resistin as an Adipokine	102
<i>Zhikui Wei and G. William Wong</i>	
14. Retinol-Binding Protein 4 as an Adipokine	110
<i>Elmar Aigner and Christian Datz</i>	
15. TNF-α as an Adipokine	119
<i>Theron C. Gilliland, Jr. and G. William Wong</i>	
16. Transforming Growth Factor as an Adipokine	128
<i>Yutaka Yata and Terumi Takahara</i>	
17. Vaspin as an Adipokine: a Link between Obesity and Metabolic Alterations	135
<i>Peter Kovacs, Matthias Blüher and Gabriela Aust</i>	
18. Visfatin as an Adipokine	144
<i>Ariadne Malamitsi-Puchner and Despina D. Briana</i>	

II. General Cellular Aspects

19. Thermal Stress and Adipokines Expression	153
<i>Umberto Bernabucci, Patrizia Morera and Loredana Basirico</i>	
20. Central Nervous System Roles for Adiponectin in Neuroendocrine and Autonomic Function	167
<i>Ted D. Hoyda, Willis K. Samson and Alastair V. Ferguson</i>	
21. The Astroglial Leptin Receptors and Obesity	185
<i>Weihong Pan, Hung Hsuehou, Yi He and Abba J. Kastin</i>	

III. Diseases and Conditions

22. Adipokines and Obesity	199
<i>Alberto O. Chavez and Devjit Tripathy</i>	
23. Nonalcoholic Fatty Liver Disease and Adipokines	214
<i>Stergios A. Polyzos, Jannis Kountouras and Christos Zavos</i>	
24. Endocrine Disruptors, Adipokines, and the Metabolic Syndrome	228
<i>Eric R. Hugo and Nira Ben-Jonathan</i>	
25. Adipokines and the Heart	243
<i>Gianluca Iacobellis</i>	

26. Adipokines as Mediators of Rheumatic Disease	259
<i>Deborah M. Levy and Earl D. Silverman</i>	
27. Adipokines and Allergy	285
<i>Giorgio Ciprandi, Davide Caimmi, Silvia Caimmi, Alessia Marseglia, Lucia Bianchi, Anna Maria Castellazzi and Gian Luigi Marseglia</i>	
28. Adipokines and Sleep Disorders	298
<i>Kapil Dhawan, Aneesa M. Das, Shariq I. Sherwani, Sainath R. Kotha, Narasimham L. Parinandi and Ulysses J. Magalang</i>	
29. Adipokines in Children and Adolescents and Implications for Disease	309
<i>HuiLing Lu and Katherine Cianflone</i>	
IV. Specific Adipokines in Disease	
30. Role of Leptin in Immune Cell Development and Innate Immunity	327
<i>Pamela J. Fraker and Afia Naaz</i>	
31. Visfatin and Hypocaloric Diets	340
<i>D.A. de Luis and R. Aller</i>	
32. Apelin in Energy Metabolism	353
<i>Isabelle Castan-Laurell and Philippe Valet</i>	
33. Adiponectin Deficiency	365
<i>Wayne Bond Lau, Ling Tao, Yajing Wang and Xin L. Ma</i>	
34. Adiponectin Enhances Inflammation in Rheumatoid Synovial Fibroblasts and Chondrocytes	380
<i>Natsuko Kusunoki, Kanako Kitahara and Shinichi Kawai</i>	
35. Resistin, Inflammation and Seminal Fluid	393
<i>Uwe Paasch, Juergen Kratzsch, Sonja Grunewald, Michael Gerber and Hans-Juergen Glander</i>	
36. Resistin in Amniotic Fluid	404
<i>Shali Mazaki-Tovi, Juan Pedro Kusanovic, Edi Vaisbuch and Roberto Romero</i>	
<i>Index</i>	419
<i>About the Editors</i>	423
<i>Color Plate Section</i>	425
