

Contents

Foreword	v
Preface	vii
List of Contributors	xi
1. Acute RNA Interference for Basic Research and Therapy <i>Federico Calegari</i>	1
2. Deciphering post-transcriptional Gene Silencing Pathways Through Genetic Screens <i>Vincent Jauvion, Allison C. Mallory and Hervé Vaucheret</i>	17
3. Implications of miRNA-directed Gene Silencing in Cancer <i>Duncan Ayers</i>	47
4. MicroRNA Interference: Concept and Technologies <i>Zhiguo Wang and Xiaobin Luo</i>	61
5. Silencing the Disease Messengers: Progress and Prospects in Developing Nucleic Acid based Therapeutics <i>Rakha H. Das and Nandini Verma</i>	85
6. Artificial MicroRNA: A Third Generation RNAi Technology <i>Pranjal Yadava</i>	113
7. Pectin Methylesterase Enhances Tomato Bushy Stunt Virus P19 RNA Silencing Suppressor Effects <i>Tatiana V. Komarova, Vitaly Citovsky and Yuri L. Dorokhov</i>	125
8. MicroRNAs: A New Paradigm For Gene Regulation <i>Luciana dos Reis Vasques, Cláudia Gasque Schoof and Eder Leite da Silva Botelho</i>	135
9. A RNAi-based Genome-wide Screen to Discover Genes Involved in Resistance to Tomato Yellow Leaf Curl Virus (TYLCV) in Tomato <i>Henryk Czosnek, Dagan Sade, Rena Gorovits, Favi Vidavski, Hila Beeri, Iris Sobol and Assaf Eybishtz</i>	155

10. RNAi for Crop Improvement	177
<i>Imran Amin, Muhammad Saeed, Shahid Mansoor and Rob W. Briddon</i>	
11. RNA Silencing and Viral Encoded Silencing Suppressors	209
<i>Masato Ikegami, Tatsuya Kon and Pradeep Sharma</i>	
12. Gene Silencing and its Applications in Plants	241
<i>S. Abdolhamid Angaj and Somayeh Darvishani</i>	
13. Use of RNAi Technology for Control of Rice Viruses	253
<i>Indranil Dasgupta</i>	
14. Use of RNAi Technology in Medicinal Plants	265
<i>Pravej Alam, Athar Ali, Mather Ali Khan and M.Z. Abdin</i>	
15. RNA Interference and Wheat Functional Genomics	285
<i>Pradeep Sharma and Rajender Singh</i>	
16. Biogenesis, Processing and Function of miRNA in Plants and Animals	309
<i>Sakshi Issar and R.K. Gaur</i>	
17. RNA Interference in Fungi	327
<i>B.M. Bashyal and Rashmi Aggarwal</i>	
18. Virulence of <i>Fusarium</i> spp. Causing Wilt Disease of Guava with Special Reference to RNAi	335
<i>V.K. Gupta, P.K. Jain, A. Manimaran, K.M. Turner, A. O'Donovan and M. Tuohy</i>	
19. RNA Interference—Interactomics and Therapeutics	347
<i>Sayak Ganguli and Abhijit Datta</i>	
Index	357
Color Plate Section	363
