- CHAPTER 25 ■ Introduction to the Deuterostomes and the Phylum Echinodermata 967
- CHAPTER 26 ■ Phylum Hemichordata: Acorn Worms and Pterobranchs 1007
- CHAPTER 27 ■ Phylum Chordata: Cephalochordata and Urochordata 1021
- CHAPTER 28 ■ Perspectives on Invertebrate Phylogeny 1047

Contents

CHAPTER 1

Introduction 1

Keeping Track of Life 4

Prokaryotes and Eukaryotes 7

Where Did Invertebrates Come From? 10

The Dawn of Life 10

The Ediacaran Period and the Origin of Animals 10

The Paleozoic Era (541–252 Ma) 12

The Mesozoic Era (252–66 Ma) 16

The Cenozoic Era (66 Ma–present) 16

Where Do Invertebrates Live? 17

Marine Habitats 17

Estuaries and Coastal Wetlands 20

Freshwater Habitats 22

Terrestrial Habitats 22

A Special Type of Environment: Symbiosis 23

Biodiversity Patterns 24

New Views of Invertebrate Phylogeny 25

Some Comments on Evolution 26

A Final Introductory Message to the Reader 32

CHAPTER 2

Systematics, Phylogeny, and Classification 35

Biological Classification 36

Nomenclature 36

Systematics 39

Monophyly, Paraphyly, and Polyphyly 40

Characters and the Concept of Homology 41

Phylogenetic Trees 43

Pleisiomorphy and Apomorphy 44

Constructing Phylogenies and
Classifications 44

Molecular Phylogenetics 51

CHAPTER 3

The Protists: Kingdom Protista 55

Taxonomic History and Classification 59

Overviews of the Major Clades, or Groups 62

The General Protistan Body Plan 64

The Protist Phyla 70

Group 1: Amoebozoa 70

Phylum Amoebozoa: Amebas 70

Group 2: Chromalveolata 76

Phylum Dinoflagellata: Dinoflagellates 76

Phylum Apicomplexa: Gregarines, Coccidians,
Haemosporidians, and Their Kin 81

Phylum Ciliata: The Ciliates 87

Phylum Stramenopila: Diatoms, Brown Algae,
Golden Algae, Slime Nets, Oomycetes,
etc. 97

Phylum Haptophyta: Coccolithophores 101

Phylum Cryptomonada: Cryptomonads 103

Group 3: Rhizaria	104
Phylum Chlorarachniophyta:	
Chlorarachniophyte Algae	104
Phylum Granuloreticulosa: Foraminiferans and Their Kin	105
Phylum Radiolaria: Radiolarians	108
Phylum Haplosporidia: Haplosporidians	111
Group 4: Excavata	112
Phylum Parabasalida: Trichomonads, Hypermastigotes, and Their Kin	112
Phylum Diplomonadida: Diplomonads	115
Phylum Heterolobosea: Heterolobosids	117
Phylum Euglenida: Euglenids	118
Phylum Kinetoplastida: Trypanosomes, Bodonids, and Their Kin	120
Group 5: Opisthokonta	124
Phylum Choanoflagellata:	
Choanoflagellates	124

Protist Phylogeny	125
The Origin of the Protista	125
Relationships among the Protists	127

CHAPTER 4

Introduction to the Animal Kingdom: Animal Architecture and Body Plans 135

Body Symmetry	136
Cellularity, Body Size, Germ Layers, and Body Cavities	138
Locomotion and Support	140
Feeding and Digestion	148
Excretion and Osmoregulation	157
Circulation and Gas Exchange	162
Nervous Systems and Sense Organs	168

Bioluminescence	174
Nervous Systems and Body Plans	174
Hormones and Pheromones	175
Reproduction	176
Asexual Reproduction	176
Sexual Reproduction	177
Parthenogenesis	179

CHAPTER 5

Introduction to the Animal Kingdom: Development, Life Histories, and Origin 183

Evolutionary Developmental Biology—EvoDevo	184
Developmental Tool Kits	184
The Relationship Between Genotype and Phenotype	185
The Evolution of Novel Gene Function	185
Gene Regulatory Networks	185
Eggs and Embryos	187
Eggs	187
Cleavage	187

Orientation of Cleavage Planes	188
Radial and Spiral Cleavage	188
Cell Fates	191
Blastula Types	192
Gastrulation and Germ Layer Formation	193
Mesoderm and Body Cavities	195
Life Cycles: Sequences and Strategies	197
Classification of Life Cycles	197
Indirect Development	197
Settling and Metamorphosis	199

Direct Development 199
 Mixed Development 200
 Adaptations to Land and Fresh Water 200
 Parasite Life Cycles 200

The Relationships Between Ontogeny and
 Phylogeny 201
 The Origin of the Metazoa 203

CHAPTER 6

Two Basal Metazoan Phyla: Porifera and Placozoa 213

Phylum Placozoa 215
 Phylum Porifera: The Sponges 216
 Taxonomic History and Classification 220
 The Poriferan Body Plan 222
 Some Additional Aspects of Sponge
 Biology 249

Distribution and Ecology 249
 Biochemical Agents 250
 Growth Rates 250
 Symbioses 251
 Poriferan Phylogeny 254
 The Origin of Sponges 254
 Evolution within the Porifera 255

CHAPTER 7

Phylum Cnidaria: Anemones, Corals, Jellyfish, and Their Kin 265

Taxonomic History and Classification 268
 The Cnidarian Body Plan 274
 Cnidarian Phylogeny 317

Ediacaran Cnidaria? 317
 Cnidarian Origins 318
 Relationships within Cnidaria 319

CHAPTER 8

Phylum Ctenophora: The Comb Jellies 327

Taxonomic History and Classification 328
 The Ctenophoran Body Plan 332

Ctenophoran Phylogeny 341

CHAPTER 9

Introduction to the Bilateria and the Phylum Xenacoelomorpha: Triploblasty and Bilateral Symmetry Provide New Avenues for Animal Radiation 345

The Basal Bilaterian 346
 Protostomes and Deuterostomes 347
 Phylum Xenacoelomorpha 349
 Classification of Phylum Xenacoelomorpha 35
 Class Acoela 351
 The Acoel Body Plan 353
 Class Nemertodermatida 360
 The Nemertodermatid Body Plan 362
 Subphylum Xenoturbellida 366
 The Xenoturbellid Body Plan 367

CHAPTER 10

Phylum Platyhelminthes: The Flatworms 373

Taxonomic History and Classification 374
The Platyhelminth Body Plan 380

Platyhelminth Phylogeny 405

CHAPTER 11

Four Enigmatic Protostome Phyla: Rhombozoa, Orthonectida, Chaetognatha, Gastrotricha 413

Phylum Rhombozoa 414

The Dicyemida 414

The Heterocyemida 417

Phylum Orthonectida 418

Phylum Chaetognatha 420

Chaetognath Classification 422

The Chaetognath Body Plan 423

Phylum Gastrotricha: The Gastrotrichs 428

Gastrotrich Classification 429

The Gastrotrich Body Plan 429

CHAPTER 12

Phylum Nemertea: The Ribbon Worms 435

Taxonomic History and Classification 436
The Nemertean Body Plan 438

Nemertean Phylogeny 450

CHAPTER 13

Phylum Mollusca 453

Taxonomic History and Classification 454
The Molluscan Body Plan 472

Molluscan Evolution and Phylogeny 521

CHAPTER 14

Phylum Annelida: The Segmented (and Some Unsegmented) Worms 531

Taxonomic History and Classification 532
The Annelid Body Plan 541
Sipuncula: The Peanut Worms 572
Sipunculan Classification 574
The Sipunculan Body Plan 575
Echiuridae: The Spoon Worms 579
Siboglinidae: Vent Worms and Their Kin 584
Siboglinid Taxonomic History 588
The Siboglinidae Body Plan 588
Hirudinoidea: Leeches and Their Relatives 591
The Hirudinoidean Body Plan 592
Annelid Phylogeny 597

CHAPTER 15

Two Enigmatic Spiralian Phyla: Entoprocta and Cycliophora 603

Phylum Entoprocta: The Entoprocts 603

Entoproct Classification 605

The Entoproct Body Plan 606

Phylum Cycliophora: The Cycliophorans 609

CHAPTER 16

The Gnathifera: Phyla Gnathostomulida, Rotifera (including Acanthocephala), and Micrognathozoa 613Phylum Gnathostomulida: The
Gnathostomulids 615

Gnathostomulid Classification 615

The Gnathostomulid Body Plan 616

Phylum Rotifera: The Free-Living Rotifers 616

Rotifer Classification 618

The Rotifer Body Plan 618

Phylum Rotifera, Subclass Acanthocephala: The
Acanthocephalans 624

The Acanthocephalan Body Plan 624

Phylum Micrognathozoa: The
Micrognathozoans 626

The Micrognathozoan Body Plan 628

CHAPTER 17

The Lophophorates: Phyla Phoronida, Bryozoa, and Brachiopoda 635

Taxonomic History of the Lophophorates 636

The Lophophorate Body Plan 637

Phylum Phoronida: The Phoronids 638

The Phoronid Body Plan 638

Phylum Bryozoa: The Moss Animals 644

The Bryozoan Body Plan 646

Phylum Brachiopoda: The Lamp Shells 657

The Brachiopod Body Plan 660

CHAPTER 18

The Nematoida: Phyla Nematoda and Nematomorpha 669Phylum Nematoda: Roundworms and
Threadworms 671

Nematode Classification 672

The Nematode Body Plan 673

Life Cycles of Some Parasitic Nematodes 682

Phylum Nematomorpha: Horsehair Worms and
Their Kin 686

The Nematomorph Body Plan 687

CHAPTER 19

The Scalidophora: Phyla Kinorhyncha, Priapula, and Loricifera 693

Phylum Kinorhyncha: The Kinorhynchs 695

Kinorhynch Classification 696

The Kinorhynch Body Plan 696

Phylum Priapula: The Priapulans 698

Priapulan Classification 699

The Priapulan Body Plan 699

Phylum Loricifera: The Loriciferans 701

CHAPTER 20

The Emergence of the Arthropods: Tardigrades, Onychophorans, and the Arthropod Body Plan 709

- Phylum Tardigrada 711
- The Tardigrade Body Plan 715
- Phylum Onychophora 718
- The Onychophoran Body Plan 722
- An Introduction to the Arthropods 728
 - Taxonomic History and Classification 728
- The Arthropod Body Plan and Arthropodization 730
- The Evolution of Arthropods 751
 - The Origin of Arthropods 751
 - Evolution within the Arthropoda 751

CHAPTER 21

Phylum Arthropoda: Crustacea: Crabs, Shrimps, and Their Kin 761

- | | |
|-------------------------------------|------------------------------|
| Classification of The Crustacea 764 | The Crustacean Body Plan 798 |
| Synopses of Crustacean Taxa 767 | Crustacean Phylogeny 831 |

CHAPTER 22

Phylum Arthropoda: The Hexapoda: Insects and Their Kin 843

- | | |
|----------------------------|-----------------------|
| Hexapod Classification 847 | Hexapod Evolution 887 |
| The Hexapod Body Plan 859 | |

CHAPTER 23

Phylum Arthropoda: The Myriapods: Centipedes, Millipedes, and Their Kin 895

- | | |
|-----------------------------|------------------------|
| Myriapod Classification 897 | Myriapod Phylogeny 908 |
| The Myriapod Body Plan 899 | |

CHAPTER 24

Phylum Arthropoda: The Chelicerata 911

- | | |
|---------------------------------|------------------------------|
| Chelicerate Classification 915 | The Pycnogonid Body Plan 958 |
| The Euchelicerate Body Plan 927 | Chelicerate Phylogeny 961 |
| The Class Pycnogonida 955 | |

CHAPTER 25

Introduction to the Deuterostomes and the Phylum Echinodermata 967

Phylum Echinodermata 968

Taxonomic History and Classification 969

The Echinoderm Body Plan 975

Echinoderm Phylogeny 1000

First Echinoderms 1000

Modern Echinoderms 1001

CHAPTER 26

Phylum Hemichordata: Acorn Worms and Pterobranchs 1007

Hemichordate Classification 1008

The Hemichordate Body Plan 1009

Enteropneusta (Acorn Worms) 1009

Pterobranchs 1015

Hemichordate Fossil Record and
Phylogeny 1018

CHAPTER 27

Phylum Chordata: Cephalochordata and Urochordata 1021

Chordate Classification 1022

Phylum Chordata, Subphylum Cephalochordata:
The Lancelets (Amphioxus) 1023

The Cephalochordate Body Plan 1041

Phylum Chordata, Subphylum Urochordata: The
Tunicates 1027

The Tunicate Body Plan 1041

Chordate Phylogeny 1041

CHAPTER 28

Perspectives on Invertebrate Phylogeny 1047

Illustration Credits 1053

Index 1061
