

Contents in Brief

Introduction 1

- CHAPTER 1/The Molecular Basis of Biology and Evolution 5**
- CHAPTER 2/Allele Dynamics in Populations 35**
- CHAPTER 3/DNA and Amino Acid Sequence Evolution 79**
- CHAPTER 4/Rates and Patterns of Molecular Evolution 107**
- CHAPTER 5/Molecular Phylogenetics and Phylogenetic Trees 165**
- CHAPTER 6/Reticulate Evolution and Phylogenetic Networks 237**
- CHAPTER 7/Evolution by DNA Duplication 273**
- CHAPTER 8/Evolution by Molecular Tinkering 339**
- CHAPTER 9/Mobile Elements in Evolution 391**
- CHAPTER 10/Prokaryotic Genome Evolution 451**
- CHAPTER 11/Eukaryotic Genome Evolution 491**
- CHAPTER 12/The Evolution of Gene Regulation 575**
- CHAPTER 13/Experimental Molecular Evolution 597**
