

CONTENTS

Preface		ix
Chapter 1	Biodiversity Conservation and Management in the Brazilian Atlantic Forest: Every Fragment Must Be Considered <i>Roseli Pellens, Irene Garay and Philippe Grandcolas</i>	1
Chapter 2	Biodiversity of Sourdough Lactic Acid Bacteria <i>Luca Settanni and Giancarlo Moschetti</i>	37
Chapter 3	Identifying Priority Areas for Biodiversity Conservation in Northern Thailand: Land Use Change and Species Modeling Approaches <i>Yongyut Trisurat, Naris Bhumpakphan, Utai Dachyosdee, Boosabong Kachanasakha and Somying Tanhikorn</i>	81
Chapter 4	An Overview of the Biodiversity and Biogeography of Terrestrial Green Algae <i>Fabio Rindi, Haj A. Allali, Daryl W. Lam and Juan M. López-Bautista</i>	105
Chapter 5	China: A Hot Spot of Relict Plant Taxa <i>Jordi López-Pujol and Ming-Xun Ren</i>	123
Chapter 6	Conservation and Management of the Biodiversity in a Hotspot Characterized by Short Range Endemism and Rarity: The Challenge of New Caledonia <i>Roseli Pellens and Philippe Grandcolas</i>	139
Chapter 7	Macroinvertebrate Distribution on Erosional and Depositional Areas Including A Former Gravel-Pit: Biodiversity and Ecological Functioning <i>A. Beauger, N. Lair and J. L. Peiry</i>	153
Chapter 8	An Assessment of Biodiversity Status in Semen Mountains National Park, Ethiopia <i>Behailu Tadesse and S.C. Rai</i>	169
Chapter 9	Plant Biodiversity Hotspots and Biogeographic Methods <i>Isolda Luna-Vega and Raúl Contreras-Medina</i>	181
Index		193
