## PART I

### THE SKELETON OF REPTILES

#### INTRODUCTION

|                                           | PAGE |
|-------------------------------------------|------|
| THE PRIMITIVE SKELETON OF REPTILES .....  | 3    |
| The Primitive Skull of the Reptilia ..... | 6    |
| The Primitive Postcranial Skeleton .....  | 7    |

#### CHAPTER I

|                                                         |    |
|---------------------------------------------------------|----|
| THE SKULL OF REPTILES .....                             | 9  |
| External Appearance, Excrescences, Chief Openings ..... | 9  |
| The Skull Elements .....                                | 13 |
| The Mandible .....                                      | 27 |
| The Skull of the Cotylosauria .....                     | 33 |
| Chelonia .....                                          | 44 |
| Theromorpha .....                                       | 46 |
| Therapsida .....                                        | 52 |
| Nothosauria .....                                       | 56 |
| Plesiosauria .....                                      | 56 |
| Placodontia .....                                       | 59 |
| Ichthyosauria .....                                     | 60 |
| Protorosauria .....                                     | 62 |
| Squamata .....                                          | 65 |
| Lacertilia or Sauria .....                              | 66 |
| Ophidia or Serpentes .....                              | 72 |
| Rhynchocephalia .....                                   | 74 |
| Pseudosuchia .....                                      | 77 |
| Pelycosimia .....                                       | 77 |
| Phytosauria .....                                       | 79 |
| Crocodilia .....                                        | 83 |
| Dinosaurs (Saurischia, Ornithischia) .....              | 87 |
| Pterosauria .....                                       | 88 |

|                     |    |
|---------------------|----|
| CHAPTER II          |    |
| THE VERTEBRAE ..... | 90 |

|                            |     |
|----------------------------|-----|
| CHAPTER III                |     |
| THE RIBS AND STERNUM ..... | 112 |

|                                       |     |
|---------------------------------------|-----|
| CHAPTER IV                            |     |
| THE PECTORAL AND PELVIC GIRDLES ..... | 124 |
| The Pectoral or Shoulder Girdle ..... | 124 |
| The Pelvic or Hip Girdle .....        | 142 |

|                                     |     |
|-------------------------------------|-----|
| CHAPTER V                           |     |
| THE LIMBS .....                     | 155 |
| The Propodials .....                | 158 |
| The Epipodials .....                | 165 |
| The Mesopodials .....               | 169 |
| The Metapodials and Phalanges ..... | 195 |

## PART II

### THE CLASSIFICATION AND RANGE OF REPTILES

|                                     |     |
|-------------------------------------|-----|
| CHAPTER VI                          |     |
| THE PROBLEM OF CLASSIFICATION ..... | 205 |

|                                                 |     |
|-------------------------------------------------|-----|
| CHAPTER VII                                     |     |
| A SYNOPSIS CLASSIFICATION OF THE REPTILIA ..... | 210 |

|                               |     |
|-------------------------------|-----|
| CHAPTER VIII                  |     |
| SUBCLASS ANAPSIDA .....       | 215 |
| Order Cotylosauria .....      | 215 |
| [Suborder Seymouriamorpha]    |     |
| Family Seymouriidae .....     | 217 |
| [Suborder uncertain]          |     |
| Family Sauravidae .....       | 217 |
| [Suborder uncertain]          |     |
| Family Gymnarthridae .....    | 217 |
| Suborder Diadectosauria ..... | 218 |
| Family Diadectidae .....      | 218 |
| Bolosauridae .....            | 218 |
| Suborder Labidosauria .....   | 218 |
| Family Captorhinidae .....    | 218 |
| Pariotichidae .....           | 218 |
| Stephanospondylidae .....     | 218 |

|                                     |     |
|-------------------------------------|-----|
| Genera incertae sedis .....         | 218 |
| [Suborder uncertain]                |     |
| Family Limnoscelidae .....          | 218 |
| Suborder Pantylosauria .....        | 220 |
| Family Pantylidae .....             | 220 |
| Suborder Pariasauria .....          | 220 |
| Family Pariasauridae .....          | 220 |
| Suborder Procolophonia .....        | 220 |
| Family Procolophonidae .....        | 220 |
| [Suborder uncertain]                |     |
| Family Elginiidae .....             | 221 |
| Order Eunotosauria .....            | 221 |
| Order Testudinata or Chelonia ..... | 222 |
| Suborder Amphichelydia .....        | 223 |
| Family Proganochelydidae .....      | 223 |
| Pleurosternidae .....               | 223 |
| Baenidae .....                      | 224 |
| Suborder Pleurodira .....           | 224 |
| Family Pelomedusidae .....          | 224 |
| Chelyidae .....                     | 224 |
| Miolanidae .....                    | 224 |
| Suborder Cryptodira .....           | 224 |
| Family Thalassemyidae .....         | 225 |
| Toxochelyidae .....                 | 225 |
| Desmatochelyidae .....              | 225 |
| Protostegidae .....                 | 225 |
| Cheloniidae .....                   | 225 |
| [Dermochelyidae] .....              | 226 |
| Chelydridae .....                   | 226 |
| Dermatemyidae .....                 | 226 |
| Emydidae .....                      | 226 |
| Testudinidae .....                  | 227 |
| Suborder Trionychoidea .....        | 227 |
| Family Plastomenidae .....          | 227 |
| Trionychidae .....                  | 227 |

## CHAPTER IX

|                               |     |
|-------------------------------|-----|
| SUBCLASS SYNAPSIDA .....      | 228 |
| Order Theromorpha .....       | 228 |
| Suborder Pelycosauria .....   | 233 |
| Family Sphenacodontidae ..... | 233 |

|                               |     |
|-------------------------------|-----|
| Suborder Edaphosauria .....   | 233 |
| Family Edaphosauridae .....   | 233 |
| Suborder Poliosauria .....    | 233 |
| Family Poliosauridae .....    | 233 |
| Ophiacodontidae .....         | 233 |
| Suborder Caseosauria .....    | 233 |
| Family Caseidae .....         | 233 |
| Suborder uncertain .....      | 236 |
| Family Paieohatteriidae ..... | 236 |
| Genera incertae sedis .....   | 236 |
| Order Therapsida .....        | 236 |
| Suborder Dinocephalia .....   | 237 |
| Family Tapinocephalidae ..... | 238 |
| Deuterosauridae .....         | 239 |
| Rhopalodontidae .....         | 239 |
| Titanosuchidae .....          | 239 |
| Suborder Dromasauria .....    | 239 |
| Family Galechiridae .....     | 239 |
| Galeopidae .....              | 239 |
| Macroscelosauridae .....      | 239 |
| Suborder Anomodontia .....    | 239 |
| Family Dicynodontidae .....   | 240 |
| Suborder Theriodontia .....   | 240 |
| Tribe Gorgonopsia .....       | 242 |
| Family Gorgonopsidae .....    | 242 |
| Ictidorhinidae .....          | 242 |
| Burnetidae .....              | 242 |
| Tribe Bauriasauria .....      | 242 |
| Therocephalia .....           | 243 |
| Family Scylacosauridae .....  | 243 |
| Ictidosuchidae .....          | 243 |
| Lycosuchidae .....            | 243 |
| Scaloposauridae .....         | 243 |
| Alopecopsidae .....           | 243 |
| Whaitsidae .....              | 243 |
| Genera incertae sedis .....   | 243 |
| Tribe Cynodontia .....        | 244 |
| Family Nythosauridae .....    | 244 |
| Cynosuchidae .....            | 245 |
| Cynognathidae .....           | 245 |

|                                        |     |
|----------------------------------------|-----|
| Iguanidae .....                        | 267 |
| Anguinidae .....                       | 267 |
| Helodermatidae .....                   | 267 |
| Lacertidae .....                       | 268 |
| Tejidae .....                          | 268 |
| Scincidae .....                        | 268 |
| Tribe Platynota .....                  | 269 |
| Family Varanidae .....                 | 269 |
| Dolichosauridae .....                  | 269 |
| Aigialosauridae .....                  | 270 |
| Tribe Pythonomorpha (Mosasauria) ..... | 272 |
| Family Mosasauridae .....              | 273 |
| Globidentidae .....                    | 273 |
| Tribe Amphisbaenia .....               | 273 |
| Family Amphisbaenidae .....            | 274 |
| Tribe Rhiptoglossa .....               | 274 |
| Family Chameleontidae .....            | 274 |
| Genera incertae sedis .....            | 274 |
| Suborder Ophidia (Serpentes) .....     | 275 |
| Family Typhlopidae .....               | 276 |
| Boidae (Pythonidae) .....              | 276 |
| Paleophidae .....                      | 276 |
| Viperidae .....                        | 276 |
| Elapidae .....                         | 277 |
| Colubridae .....                       | 277 |

## CHAPTER XII

|                                           |     |
|-------------------------------------------|-----|
| SUBCLASS DIAPSIDA .....                   | 278 |
| ? Order Proterosuchia .....               | 278 |
| Order "Eosuchia" .....                    | 278 |
| Family Younginidae .....                  | 278 |
| Superorder Diaptosauria .....             | 279 |
| Order Rhynchocephalia .....               | 279 |
| Suborder Rhynchosauria .....              | 279 |
| Sphenodontia (Rhynchocephalia vera) ..... | 281 |
| Choristodera .....                        | 283 |
| ? Suborder Thalattosauria .....           | 283 |
| Superorder Archosauria .....              | 284 |
| Order Parasuchia .....                    | 284 |
| Suborder Pseudosuchia .....               | 284 |
| Family Aetosauridae .....                 | 285 |

|                                                       |      |
|-------------------------------------------------------|------|
| Ornithosuchidae .....                                 | 285  |
| Scleromochlidae .....                                 | 285  |
| Suborder Pelycosimia .....                            | 285  |
| Suborder Phytosauria .....                            | 286  |
| Family Phytosauridae .....                            | 286  |
| Stagonolepidae .....                                  | 286  |
| [Suborder Desmotosuchia] .....                        | 286  |
| Order Crocodilia [Loricatal] .....                    | 287  |
| Suborder Eusuchia .....                               | 288  |
| Family Teleosauridae .....                            | 288  |
| Pholidosauridae .....                                 | 288  |
| Atoposauridae .....                                   | 288  |
| Goniopholididae .....                                 | 289  |
| Dyrosauridae .....                                    | 289  |
| Hylaeochampsidae .....                                | 289' |
| Gavialidae .....                                      | 289  |
| Tomistomidae .....                                    | 289  |
| Crocodylidae .....                                    | 290  |
| Genus incertae sedis .....                            | 290  |
| Suborder Thalattosuchia .....                         | 290  |
| Family Metriorhynchidae .....                         | 291  |
| [Dinosauria] .....                                    | 291  |
| Order Saurischia .....                                | 291  |
| Suborder Theropoda .....                              | 29r  |
| Family Plateosauridae .....                           | 291  |
| Anchisauridae .....                                   | 292  |
| Suborder Sauropoda (Opisthocoelia, Cetiosauria) ..... | 292  |
| Family Cetiosauridae .....                            | 293  |
| Camarasauridae .....                                  | 293  |
| Atlantosauridae .....                                 | 293  |
| Diplodocidae .....                                    | 293  |
| Genera incertae sedis .....                           | 293  |
| Order Ornithischia [Orthopoda, Predentata] .....      | 294  |
| Suborder Ornithopoda (Predentata) .....               | 294  |
| Family Nanosauridae .....                             | 294  |
| Hypsilophodontidae .....                              | 294  |
| Iguanodontidae .....                                  | 295. |
| Trachodontidae (Hadrosauridae) .....                  | 295  |
| Suborder Stegosauria .....                            | 295  |
| Ceratopsia .....                                      | 295  |
| Order Pterosauria .....                               | 296  |

|                                                  |     |
|--------------------------------------------------|-----|
| Suborder Pterodermata (Rhamphorhynchoidea) ..... | 296 |
| Family Rhamphorhynchidae .....                   | 295 |
| Suborder Pterodactyloidea .....                  | 298 |
| Family Pterodactylidae .....                     | 298 |
| Ornithocheiridae .....                           | 298 |
| Pteranodontidae .....                            | 298 |
| Nyctosauridae .....                              | 298 |
| Genera incertae sedis .....                      | 298 |
