

CONTENTS

Preface		vii
Chapter 1	A Study of Airborne Trace Elements in Belgrade Urban Area: Instrumental and Active Biomonitoring Approach <i>M. Aničić, Z. Mijić, M. Kuzmanoski, A. Stojić, M. Tomašević, S. Rajšić and M. Tasić</i>	1
Chapter 2	Flow Optosensing Applied to the Analysis of Trace Elements <i>Antonio Ruiz-Medina and Eulogio J. Llorent-Martínez</i>	31
Chapter 3	Trace Metals in Fruit and Vegetable and their Effects on Human Health <i>Stefania Papa, Giovanni Bartoli and Antonietta Fioretto</i>	55
Chapter 4	Implications of Excessive Livestock Mineral Supplementation on Environmental Pollution and Human Health <i>Marta López-Alonso and Marta Miranda</i>	75
Chapter 5	Distribution and Possible Sources of Trace Elements in Estuarine Sediments: Comparative Study among Estuaries of the Basque Country and other Parts of the World <i>Ainara Gredilla, Silvia Fdez-Ortiz de Vallejuelo, Azibar Rodriguez, Julen Bustamante, Gorka Arana, Alberto de Diego and Juan Manuel Madariaga</i>	93
Chapter 6	Distinguishing between Natural and Anthropogenic Sources of Trace Elements in the Sediments Using the Methods of Geochemical Normalization and Statistical Analysis <i>Sanja M. Sakan and Dragana S. Dorđević</i>	117

Chapter 7	Zinc Availability to Forage Crops in Soils of the Pampas Region, Argentina	135
	<i>Silvana Irene Torri, Alejo Perez-Carrera and Alicia Fernández-Cirelli</i>	
Index		149
