

Contents

Preface		xi
Chapter I	Involvement of Neuropeptides in Gonadotropin Secretion in Teleost Fish <i>Masafumi Amano</i>	1
Chapter II	Neuroendocrine Control of Lunar-Synchronized Spawning Rhythm in Grass Puffer <i>Hironori Ando, Taro Ikegami, Yusuke Maruyama, Md. Shahjahan and Atsuhiko Hattori</i>	17
Chapter III	Cytokines as Intraovarian Mediators of Luteinizing Hormone-Induced Ovulation in Fish <i>Diego Crespo, Kousik Pramanick and Josep V. Planas</i>	31
Chapter IV	Teleosts as Models for Environmental Risk Assessment <i>Aparna Dutta-Gupta</i>	49
Chapter V	Atherinopsid Fishes as Models for the Study of Temperature-Dependent Sex Determination: Physiology of Gonadal Sex Differentiation in Pejerrey <i>Odontesthes Bonariensis</i> <i>Juan I. Fernandino, Ricardo S. Hattori, Carlos A. Strüssmann and Gustavo M. Somoza</i>	57
Chapter VI	Developmental Aspects of Reproductive Hormones in Fish <i>Jon Hildahl</i>	73
Chapter VII	Dimorphisms in the Brain and Involvement of Various Neurosubstances in Fish Reproduction: An Overview <i>Arun G. Jadhaio</i>	91

Chapter VIII	Ovarian Catecholestrogens: Role in Final Oocyte Maturation <i>K. P. Joy and R. Chaube</i>	115
Chapter IX	Understanding the Mechanism of Oocyte Maturation and Ovulation to Induce Spawning for Seed-Production in the Japanese Eel: Tough and Challenging Task <i>H. Kagawa</i>	131
Chapter X	Transgenic Medaka Lines with a Visible Marker for Phenotypic Sex: Genetic Analyses of an XY Sex-reversal <i>Akira Kanamori, Naoya Ichikawa and Michiko Ishikawa</i>	143
Chapter XI	Hypothalamic Regulation of Pituitary Gonadotropins <i>Takashi Kitahashi, Md. Shahjahan and Ishwar S. Parhar</i>	153
Chapter XII	Sexual Plasticity of Behavior in Goldfish <i>Makito Kobayashi, Seiji Saoshiro, Yutaro Kawaguchi, Youichi Hayakawa and Arimune Munakata</i>	183
Chapter XIII	Molecular Mechanisms of Gonadal Sex Differentiation and Sex-Reversal in Fish: Tilapia and Medaka <i>Tohru Kobayashi</i>	203
Chapter XIV	Physiological and Endocrinological Mechanisms of Sex Change in the Grouper <i>Yasuhisa Kobayashi, Ryosuke Murata and Masaru Nakamura</i>	221
Chapter XV	Some Non-Classical Intragonadal Regulators of Fish Reproduction <i>Bechan Lal</i>	235
Chapter XVI	Involvement of Brain-Pituitary-Gonadal Axis on Regulation of the Reproductive Cycle in Female Chub Mackerel <i>Michiya Matsuyama, Sethu Selvaraj, Mitsuo Nyuji and Hirofumi Ohga</i>	251
Chapter XVII	Teleosts Are Classical Models for the Study of Oogenesis and Shift in Steroidogenesis <i>Raju Murugananthkumar and Balasubramanian Senthilkumaran</i>	275
Chapter XVIII	Function of Germ Cells in Sex Differentiation <i>Toshiya Nishimura and Minoru Tanaka</i>	291
Chapter XIX	Fish Gonadotropin Receptors <i>Yuichi Oba</i>	305

Chapter XX	Regulation of Teleost Reproduction by Brain-Pituitary Axis <i>P. D. Prasada Rao</i>	319
Chapter XXI	Perspectives on the Gonadotropin-Releasing Hormone Gonadotropins-Monoamines: Relevance to Gonadal Differentiation and Maturation in Teleosts <i>Yarikipati Prathibha, Chawngte Laldinsangi and Balasubramanian Senthilkumaran</i>	341
Chapter XXII	Zebrafish as a Vertebrate Model System for Developmental Biology and Biomedical Research <i>K. Raghuveer</i>	363
Chapter XXIII	Sperm Maturation in Teleosts: Role of Androgens and Progestins in Our Present Understanding to Emerging New Concepts <i>Anbazhagan Rajakumar and Balasubramanian Senthilkumaran</i>	377
Chapter XXIV	Expression Profiling of Various Marker Genes Involved in Gonadal Differentiation of Teleosts: Molecular Understanding of Sexual Plasticity <i>Chenichery Sudhakumari and Balasubramanian Senthilkumaran</i>	401
Chapter XXV	Membrane Progesterin Receptor, a Key Mediator of Final Oocyte Maturation in Fish <i>Toshinobu Tokumoto</i>	423
Index		441
