

CONTENTS

Preface		vii
Chapter 1	Leptin in Alzheimer's Disease and other Cognitive Disorders and its Association with Underlying Lipid Abnormalities <i>Jane M. Johnston, George Perry, J. Wesson Ashford and Nikolaos Tezapsidis</i>	1
Chapter 2	Fat, Salt and Blood Pressure: The Leptin-Renal Axis <i>Cristian Del Carpio Tenorio, Pramesh Dhakal, Garry P. Reams, Ronald H. Freeman, Robert Spear, Kan Liu and Daniel Villarreal</i>	17
Chapter 3	Melanoma and Leptin <i>Arash Sabetisoofyani</i>	33
Chapter 4	Inhibition of Oncogenic Effects of Leptin by cAMP Elevation in Triple Negative Breast Cancer Cells <i>Annamaria Spina, Francesca Di Maiolo, Luigi Sapio, Luca Sorvillo and Silvio Naviglio</i>	39
Chapter 5	Leptin: From Energy Balance to Inflammatory Process in Obesity <i>Flávia Campos Corgosinho, Andrea Frontini, Antonio Giordano, Saverio Cinti and Ana Raimunda Dâmaso</i>	45
Chapter 6	Leptin Regulation of Intestinal Nutrients Absorption <i>Jaione Barrenetxe, Carmen Fanjul and María Pilar Lostao</i>	61
Chapter 7	Implications of Leptin in Male Reproductive Function <i>Luc J. Martin</i>	83
Chapter 8	Role of Leptin in Early Life Increases the Metabolic Vulnerability in Adults: Physiological, Pathological and Potential Therapeutic Implications <i>L. Manuel Apolinar and E. de la Chesnaye Caraveo</i>	111
Chapter 9	The Skeletal Effects of Leptin <i>Natalie K. Y. Wee and Paul A. Baldock</i>	129

Chapter 10	The Physiological Roles of Leptin in the Oral and Maxillofacial Region: Promotive Effects on Mucosal Wound Healing and Tooth Development	141
	<i>Reiko Tokuyama and Kazuhito Satomura</i>	
Chapter 11	Respiratory Responses to Microinjections of Leptin into the Pre-Bötzinger Complex of the Rat	157
	<i>Alexey N. Inyushkin and Elena M. Inyushkina</i>	
Chapter 12	Leptin as a Reproductive Modulator: An Eco-Physiological Approach	173
	<i>Elena Bukovetzky and Abraham Haim</i>	
Index		189
