

CONTENTS

Preface		vii
Chapter 1	Kiwifruit Flavonoids and their Antioxidant Activity in Colorful Actinidia spp. Based on their Evidences <i>Noboru Motohashi</i>	1
Chapter 2	Anthocyanins of Red Noble Muscadine Berries <i>Youssef W. Mirhom, Yuping V. Williamson, Paula L. Schulbaum, Erin B. Krueger and Frank S. D'Amelio, Sr.</i>	23
Chapter 3	Electrochemical, Bioactive Mechanism of Interaction and Analytical Studies of Anthocyanins and Related Compounds <i>Seetharamappa Jaldappagari, Ashwini H. Hegde, Prashanth Shankar Narayan, Nagappa L. Teradal and Noboru Motohashi</i>	35
Chapter 4	Anthocyanins in Rices: Biosynthesis and Health Benefits <i>Yafang Shao and Jinsong Bao</i>	93
Chapter 5	Effect of Anthocyanin Extracts from <i>Justicia matammensis</i> and <i>Justicia laxa</i> on Sick Cells <i>P. T. Mpiana, M. T. Bokota, J. P. Mbula, K. N. Ngbolua, D. S.T. Tshibangu, E.K. Atibu, J. T. K. Kwembe and M. K. Kakule</i>	111
Chapter 6	Stabilty of Anthocyanin in Strawberry Jam and the Application of Saccharides <i>Yoshiyuki Watanabe, Yoshiharu Okada and Masato Nomura</i>	125
Chapter 7	Environmentally Friendly Technologies for Obtaining Anthocyanins from an Unusual Source <i>S. P. Jesus, D. T. Santos and M. A. A. Meireles</i>	139

Chapter 8	Advanced Analytical Techniques for the Characterization of Anthocyanins in Fruits and Vegetables <i>Ihsan Iswaldi, David Arráez-Román, Ana María Gómez-Caravaca, Antonio Segura-Carretero and Alberto Fernández-Gutiérrez</i>	153
Chapter 9	The Health Effects of Jujubes (<i>Ziziphus Species</i>) Based on their Evidences <i>Noboru Motohashi</i>	177
Chapter 10	Structural Diversity of Anthocyanins in Fruits <i>Vlasios Goulas, Ariel R. Vicente and George A. Manganaris</i>	223
Chapter 11	Resveratrol and Health <i>Sang Yoon Choi</i>	249
Chapter 12	Comparative Human <i>In Vitro</i> and <i>In Vivo</i> Bioavailability Investigation of Bilberry Anthocyanins in Different Complex Ligands with Different Copigmentation Status <i>Thomas Eidenberger, Manuel Selg and Sigrid Fuerst</i>	257
Chapter 13	Anthocyanin Profile and their Biological Properties in Popular Mediterranean Red Wines <i>Gian Carlo Tenore</i>	281
Chapter 14	The Health Effects of Taros (<i>Colocasia esculanta</i> Shott) Based on their Evidences <i>Noboru Motohashi</i>	297
