

CONTENTS

Preface		vii
Chapter 1	Microbial Communities in Terrestrial Moss (Bryophyta): Structure, Function and Ecological Significance <i>O. Roger Anderson</i>	1
Chapter 2	Terrestrial Mosses as Trace Element Bioindicators: A Review <i>Sabina Dołęgowska and Zdzisław M. Migaszewski</i>	25
Chapter 3	Moss Bioreactors: Novel Biotechnological Tools for the Production of Pharmaceutical Molecules <i>Patricia B. Pelegrini and Maria Fátima Grossi de Sa</i>	71
Chapter 4	Endophytic Bacteria Associated with Sphagnum Mosses: Ecological Diversity and Application for Agricultural Microbiology <i>A. V. Shcherbakov, E. Yu. Kuzmina, E. D. Lapshina, Bragina, C. Berg, G. Berg, E. N. Shcherbakova, V. K. Chebotar and I. A. Tikhonovich</i>	87
Chapter 5	Moss Biomonitoring in Use: Small Scale Area Investigation of Heavy Metals Air Pollution - Mines and Smelter Plant Environments in the Republic of Macedonia <i>Trajče Stafilov, Biljana Balabanova, Robert Šajn and Katerina Bačeva</i>	111

Chapter 6	Biomonitoring of Atmospheric Pollution Using Mosses: Recent Developments and Future Prospects	171
	<i>Snežana Dragović, Mirjana Čujić, Jelena Petrović, Ranko Dragović, Milan Đorđević and Ljiljana Janković-Mandić</i>	
Chapter 7	Impact of Forest Decline on the Fine-Scale Vertical Distribution of Epiphytic Bryophytes	199
	<i>Yoshitaka Oishi</i>	
Chapter 8	Forensic Botany: The Use of Mosses in Criminal Investigations	221
	<i>Marco Caccianiga, Federica Conforti and Massimo Lancia</i>	
Index		233
