

CONTENTS

Preface		vii
Chapter 1	Regulation of Cytochrome <i>c</i> in Respiration, Apoptosis, Neurodegeneration and Cancer: The Good, the Bad and the Ugly <i>Maik Hüttemann, Jeffrey W. Doan, Anton-Scott Goustin, Christopher Sinkler, Gargi Mahapatra, Joseph Shay, Jenney Liu, Hosam Elbaz, Siddhesh Aras, Lawrence I. Grossman, Yuchuan Ding, Steven P. Zielske, Moh H. Malek, Thomas H. Sanderson and Icksoo Lee</i>	1
Chapter 2	Cytochrome <i>b₅</i> as a Pleiotropic Metabolic Modulator in Mammalian Cells <i>Alejandro K. Samhan-Arias and Carlos Gutierrez-Merino</i>	39*
Chapter 3	Cytochrome <i>c</i> -Lipid Interaction in the Regulation of Cell Fate: Respiration, Apoptosis and Diseases <i>Laura Fiorucci, Federica Sinibaldi and Roberto Santucci</i>	81
Chapter 4	The Role of Cytochrome <i>c</i> in Apoptosis: Recent Revelations <i>Thomas Brittain</i>	103

Chapter 5	Redox-Active Silver(I) Complexes with Sterically Hindered 1,2-Dihydroxybenzene Derivatives: Reduction of Cytochrome <i>c</i> and Antimicrobial Activity	121
	<i>N. V. Loginova, T. V. Koval'chuk, N. P. Osipovich, Y. V. Faletrov, Yu. S. Halauko, G. I. Polozov, A. T. Gres', H. I. Harbatsevich, A. V. Hlushko, R. A. Zheldakova and V. M. Shkumatov</i>	
Chapter 6	Structural Aspects of Cytochrome <i>c</i> -Cardiolipin Interactions: Förster Resonance Energy Transfer Study	173
	<i>Valeriya M. Trusova, Julian G. Molotkovsky, Paavo K. J. Kinnunen and Galyna P. Gorbenko</i>	
Chapter 7	The Involvement of Cytochrome <i>c</i> Oxidase in Aluminium Neurotoxicity	225
	<i>Ankica Jelenković, Marina D. Jovanović and Nataša Petronijević</i>	
Index		253
