

Contents

Preface	IX
Chapter 1 Physiological and Biochemical Responses of <i>Ulva prolifera</i> and <i>Ulva linza</i> to Cadmium Stress He-ping Jiang, Bing-bing Gao, Wen-hui Li, Ming Zhu, Chun-fang Zheng, Qing-song Zheng and Chang-hai Wang	1
Chapter 2 Genomics Approaches for Crop Improvement against Abiotic Stress Bala Anı Akpınar, Stuart J. Lucas and Hikmet Budak	12
Chapter 3 Some Problems in Proving the Existence of the Universal Common Ancestor of Life on Earth Takahiro Yonezawa and Masami Hasegawa	21
Chapter 4 Complex Tasks Force Hand Laterality and Technological Behaviour in Naturalistically Housed Chimpanzees: Inferences in Hominin Evolution M. Mosquera, N. Geribàs, A. Bargalló, M. Llorente and D. Riba	26
Chapter 5 Drought Tolerance in Modern and Wild Wheat Hikmet Budak, Melda Kantar and Kuaybe Yucebilgili Kurtoglu	38
Chapter 6 Genetic Variation and Population Structure in Jamunapari Goats Using Microsatellites, Mitochondrial DNA, and Milk Protein Genes P. K. Rout, K. Thangraj, A. Mandal and R. Roy	54
Chapter 7 Genetic Diversity and Variability in Endangered Pantesco and Two Other Sicilian Donkey Breeds Assessed by Microsatellite Markers Salvatore Bordonaro, Anna Maria Guastella, Andrea Criscione, Antonio Zuccaro and Donata Marletta	61
Chapter 8 Evolutionary Relationship between Two Firefly Species, <i>Curtos costipennis</i> and <i>C. okinawanus</i> (Coleoptera, Lampyridae), in the Ryukyu Islands of Japan Revealed by the Mitochondrial and Nuclear DNA Sequences Masahiko Muraji, Norio Arakaki and Shigeo Tanizaki	67
Chapter 9 The Low Temperature Induced Physiological Responses of <i>Avena nuda</i> L., a Cold-Tolerant Plant Species Wenying Liu, Kenming Yu, Tengfei He, Feifei Li, Dongxu Zhang and Jianxia Liu	76

Chapter 10	GmNAC5, a NAC Transcription Factor, Is a Transient Response Regulator Induced by Abiotic Stress in Soybean Hangxia Jin, Guangli Xu, Qingchang Meng, Fang Huang and Deyue Yu	83
Chapter 11	Developmental Principles: Fact or Fiction A. J. Durston	88
Chapter 12	Differential Evolutionary Constraints in the Evolution of Chemoreceptors: A Murine and Human Case Study Ricardo D'Oliveira Albanus, Rodrigo Juliani Siqueira Dalmolin, José Luiz Rybarczyk-Filho, Mauro Antônio Alves Castro and José Cláudio Fonseca Moreira	93
Chapter 13	Origins and Evolution of WUSCHEL-Related Homeobox Protein Family in Plant Kingdom Gaibin Lian, Zhiwen Ding, Qin Wang, Dabing Zhang and Jie Xu	102
Chapter 14	Effects of Zoledronic Acid on Physiologic Bone Remodeling of Condylar Part of TMJ: A Radiologic and Histomorphometric Examination in Rabbits Ufuk Tatli, Yakup Üstün, Mehmet Kürkçü and Mehmet Emre Benlidayı	114
Chapter 15	Extensive Introgression among Ancestral mtDNA Lineages: Phylogenetic Relationships of the Utaka within the Lake Malawi Cichlid Flock Dieter Anseeuw, Bruno Nevado, Paul Busselen, Jos Snoeks and Erik Verheyen	120
Chapter 16	Microsatellites Cross-Species Amplification across Some African Cichlids Etienne Bezault, Xavier Rognon, Karim Gharbi, Jean-Francois Baroiller and Bernard Chevassus	129
Chapter 17	Vehicles, Replicators, and Intercellular Movement of Genetic Information: Evolutionary Dissection of a Bacterial Cell Matti Jalasvuori	136
Chapter 18	Divergence in Defence against Herbivores between Males and Females of Dioecious Plant Species Germán Avila-Sakar and Cora Anne Romanow	153
Chapter 19	Deep Phylogenetic Divergence and Lack of Taxonomic Concordance in Species of <i>Astronotus</i> (Cichlidae) Olavo Pinhatti Colatreli, Natasha Verdasca Meliciano, Daniel Toffoli, Izeni Pires Farias and Tomas Hrbek	169
Chapter 20	Genomic Structure and Evolution of Multigene Families: "Flowers" on the Human Genome Hie Lim Kim, Mineyo Iwase, Takeshi Igawa, Tasuku Nishioka, Satoko Kaneko, Yukako Katsura, Naoyuki Takahata and Yoko Satta	177

Chapter 21	<i>Drosophila melanogaster</i> Selection for Survival of <i>Bacillus cereus</i> Infection: Life History Trait Indirect Responses	188
	Junjie Ma, Andrew K. Benson, Stephen D. Kachman, Zhen Hu and Lawrence G. Harshman
