Preface

vii

Chapter 1	Compensating the Impact of Large Reservoirs in Amphibian Communities: A Case Study <i>Mário Santos, Paulo Barros, Rita Bastos, Hélia Vale-Gonçalves, Vera Lourenço, Paulo Travassos, Diogo Carvalho, Carla Gomes, Francisco Morinha and João Alexandre Cabral</i>	1
Chapter 2	Unexpected Diversity of Metallothionein Primary Structure in Amphibians: Evolutionary Implications for Vertebrate Metallothioneins <i>Rosaria Scudiero</i>	27
Chapter 3	Toxins: A Chemical Defense for Amphibians' Survival <i>Juliana Mozer Sciani</i>	39
Chapter 4	Cyanobacteria on the Scales of Fossil Fishes As a Possible Ancestor of Amphibians <i>Petr Kolosov</i>	69

Chapter 5	Assessment of Persistent, Bioaccumulative and Toxic Substances (PBTs) and Sublethal Effects in Giant Toads from Coatzacoalcos Veracruz, Mexico	83
	<i>César A. Ilizaliturri-Hernández,</i> <i>Guillermo Espinosa-Reyes,</i> <i>Donaji J. González-Mille,</i> <i>Rogelio Costilla-Salazar,</i> <i>Jesús Mejia-Saavedra,</i> <i>Gabriela Cilia-Lopez</i> <i>and Alma D. Nava-Montes</i>	
Chapter 6	The Adverse Effects of Anthropogenic Pollution on <i>Xenopus laevis</i> with Special Reference to Acid Mine Drainage (AMD) in a Freshwater Wetland	115
	<i>Paul Oberholster, Arno Reed de Klerk,</i> <i>Anna-Maria Botha, Oluwaseun Olusegun Babalola,</i> <i>Luyanda Ndlela, Karin Staebe</i> <i>and Johannes Hendrik van Wyk</i>	
Index		143
