

TABLE OF CONTENTS

<i>List of Figures</i>	<i>xi</i>
<i>List of Tables</i>	<i>xv</i>
<i>Preface</i>	<i>xvii</i>
Chapter 1 Introduction To Plant Genes, Genomes and Genetics	1
1.1 Introduction.....	2
1.2 Plant Genes	2
1.3 Plant Genome.....	12
1.4 Genetic Evaluation In Plants	16
Chapter 2 Genetic and Physiological Controls in Plants	23
2.1 Introduction.....	24
2.2 Genetic and Physiological Controls During Plants Establishment	24
2.3 Plant Signaling and Regulation	36
Chapter 3 Breeding System in Plants	41
3.1 Introduction.....	42
3.2 History and Nature of Plant Breeding.....	43
3.3 Diverse Plant Breeding Techniques	44
3.4 Genetic Structure of Plants as Related to Breeding System	45
3.5 Genetic Variation In Plant Breeding System.....	47
3.6 Relationship Between Yields, Genetics, and Breeding System	49
3.7 Breeding and Biodiversity	53
3.8 Safeguarding New Plant Varieties Through Intellectual Property	55
Chapter 4 Heterosis and Combining Ability in Sunflower and Bean Plants	57
4.1 Introduction.....	58
4.2 Genetics, Genomics, and Breeding of Sunflower	58
4.3 Genetics, Genomics, and Breeding of Beans.....	62

Chapter 5	Genetics in Hybridization of Coffee and Maize Plants	71
	5.1 Introduction.....	72
	5.2 Hybridization of Coffee Plants	72
	5.3 Maize Hybridization.....	84
Chapter 6	Characterization of Gene Flow In Plants: A Case Analysis of Amaranth	93
	6.1 Introduction.....	94
	6.2 Amaranth Types	95
	6.3 Breeding System In Amaranth	96
	6.4 Gene Flow During Outcrossing In Amaranth	99
	6.5 Germplasm Collections and Production.....	100
	6.6 Breeding Systems Based on the Genetic Structure of Amaranth.....	101
	6.7 Methods of Interspecific Gene Transfer In Amaranth	102
	6.8 Prediction of Amaranth Yield	104
Chapter 7	Clonal Breeding In Plants	107
	7.1 Introduction.....	108
	7.2 Clonal Breeding of Potato	108
	7.3 Clonal Breeding of Citrus Fruits.....	115
	7.4 Passion Fruit Breeding.....	121
	7.5 Clonal Breeding of Strawberry	126
	7.6 Clonal Breeding of Sugar Cane	130
	7.7 Clonal Breeding of Pyrethrum.....	137
	7.8 Clonal Breeding of Napier Grass.....	139
Chapter 8	Genetics In Plant Viral and Bacterial Diseases	143
	8.1 Introduction.....	144
	8.2 Characterization of Plant Viruses.....	144
	8.3 Characterization of Bacterial Plant Diseases	149
Chapter 9	Genetic Modification of Agricultural Plants For Resistance Against Common Diseases and Pests.....	157
	9.1 Introduction.....	158
	9.2 Breeding Pigeon Peas For Resistance Against Fusarium Wilt.....	159
	9.3 Genetic Responses of Common Bean Cultivars To Bean Flies.....	166
	9.4 Genetically Resistant Wheat Varieties Against Stripe Rust.....	169

9.5 Breeding Potato For Resistance to Late Blight.....	177
9.6 Breeding Maize For Resistance to Southern Leaf Blight.....	180
9.7 Genetically Resistant Cultivars Against Cowpea Aphids.....	181
9.8 Genetically Resistant Coffee to Coffee Berry Disease.....	184
9.9 Genetically Resistant Cassava Cultivars to Mosaic Disease.....	186
9.10 Genetically Resistant Cowpea Cultivars Against Cowpea Weevil ...	188
9.11 Genetic Resistance to Mediterranean Fruit Fly.....	191
9.12 Breeding Beans For Resistance to Common Mosaic Virus.....	193
9.13 Genetic Resistance Against Melon Thrips.....	196
9.14 Genetically Resistant Bean Cultivars To Angular Leaf Spot.....	197
9.15 Genetic Resistance Against Nematodes.....	200
Chapter 10 Plant Genotype X Environment Interaction.....	203
10.1 Introduction.....	204
10.2 Estimating The Genotype X Environment Interaction In Plants.....	204
10.3 Effect of Water on Plant Growth And Development.....	206
10.4 Genotype X Environment Interaction In Barley.....	211
10.5 Genotype X Environment Interaction In Onions.....	213
10.6 Genotype X Environment Interaction In Pigeon Peas.....	219
10.7 Genotype X Environment Interaction In Soybean.....	224
10.8 Genotype X Environment Interaction In Sorghum.....	229
References.....	231
Index.....	235
