
TABLE OF CONTENTS

List of Figures	xī
List of Tables.....	xv
List of Abbreviations.....	xvii
Preface.....	xix

Chapter 1	Biodiversity, Ecosystems, and Ecological Alteration	1
	1.1. Current Trends on Biodiversity	5
	1.2. Distribution of Biodiversity	6
	1.3. Herbivores Distribution in Natural Habitats	7
	1.4. The Birds Community Dynamics.....	12
	1.5. The Current Situation of Biodiversity	14
	1.6. The Association Between Mankind and the Surroundings.....	17
 Chapter 2	 Ecological Relationship Between Soil and Water	 21
	2.1. Soil Classification	22
	2.2. Formation of Soils	25
	2.3. Changes in Volume of the Soil	25
	2.4. Water Infiltration in the Soil	31
	2.5. The Rivers and the Aquatic Ecosystems	34
 Chapter 3	 What Causes Biodiversity Loss	 37
	3.1. Anthropogenic Causes	38
	3.2. Alien Species Introduction	41
	3.3. Environmental Pollution.....	42
	3.4. Climate Change.....	43
	3.5. Local Extinctions of Populations.....	46

Chapter 4	Wildlife Responses to Altered Natural Habitats	49
	4.1. Dynamic Processes in Nature That Can be Altered.....	51
	4.2. Impacts of Fire on the Wild Ecosystem.....	58
	4.3. Impact of Livestock Farming or Pastoralism Activities on Savannas Wildlife.....	60
	4.4. Overgrazing Savannas as an Important Disturbance.....	62
Chapter 5	Alteration of Soils, Rivers, and Streams	65
	5.1. Soil Acidity on Crop Growth.....	66
	5.2. Soil Erosion And Its Ecological Impacts.....	69
	5.3. Alteration of Rivers and Streams by Pollution.....	76
	5.4. Major Microorganisms Used to Evaluated Pollution of Rivers and Streams	82
	5.5. Change of River and Streams Ecosystem and Downstream Displacement of Invertebrates	83
Chapter 6	Biodiversity Conservation Measures.....	93
	6.1. Biotechnology	96
	6.2. Safeguarding Genetic Resources For Scientific Research	97
	6.3. Maintenance of Agrodiversity	100
	6.4. Use of Plant Residue as a Soil Conservation Measures	101
	6.5. Elimination of Wastes In The Ecosystem	104
	6.6. Financing Conservation of Biodiversity	108
Chapter 7	Laws That Oversee Biodiversity Conservation.....	111
	7.1. The Legal Conventions.....	112
	7.2. The Strategies For Protection And Conservation.....	121
	7.3. <i>In-Situ</i> Conservation: The Creation of Protected Areas	123
	7.4. <i>Ex-Situ</i> Conservation of Biodiversity	130
	7.5. Pollution Control to Safeguard The Biodiversity.....	133
Chapter 8	Human Ecology, Disturbance Ecology, and Altered Ecosystems.....	137
	8.1. Air Pollutants and Altered Human Environments.....	138
	8.2. High Surface Area Inorganic Membrane For Process Water Removal	140
	8.3. Wireless Monitoring of Steel Production Facilities.....	141
	8.4. Changes In Energy Sources	142

49	8.5. Ecological Changes on Soil and the Influence on Crop Growth	147
51	8.6. Soil Microorganisms and Their Effects	155
58	8.7. Agroecosystems: Livestock and the Impacts of Mineral Imbalances in Tropical Soils	156
60	8.8. Factors Influencing Soil Mineralogy	159
62	8.9. An Evaluation on Major Elements and Trace Elements Required by Livestock	161
65	8.10. Forage Plant Composition and Mineral Imbalance in Grazing Animals	168
69	Chapter 9 Human Health Alterations Caused By Disturbances	171
76	9.1. Human Health Alteration: Exposure To Chemicals From Air Pollution	178
82	9.2. Human Health Alteration: Infectious Disease Trends	180
83	9.3. Human Health Alterations and Nuclear Crisis	182
93	9.4. Human Health Alteration: Disturbance in the Ecology of Oceans ...	184
96	9.5. Human Health Alterations: Application of Pesticides	186
97	Chapter 10 Alteration In Human Populations and its Impacts to the Human Ecology	193
100	10.1. Population Growth and its Impacts on Land Availability	194
101	10.2. Population Growth and its Impacts on Food Production	196
104	10.3. Population Growth and Its Impacts on Education System	198
108	10.4. Population Growth and Its Impacts on Land Value	199
111	10.5. Population Growth and Its Impacts on Housing	201
112	10.6. Population Growth and Its Impacts on Rural Development	202
121	10.7. Land Pressure as a Key Component of Rural Underdevelopment ..	205
123	Chapter 11 Human Migration and Its Consequences in Ecological Disturbances	207
130	11.1. Ecological Effects of Rural and Indigenous People Migration	210
133	11.2. Impact of Migration on Transportation	214
137	11.3. Socio-Economic Consequences of Human Migration	216
138	11.4. Impact of Migration on The Family Wage Labor	218
140	11.5. Impact of Rural-Urban Migration on Financial Expenditure (Remittance)	222

Bibliography.....	227
Index.....	235
