Foreword	ix
PART I: INTRODUCTION TO INVASION BIOLOGY AND THE HIERARCHY-OF-HYPOTHESES APPROACH	
1 Invasion Biology: Searching for Predictions and Prevention and Avoiding Lost Causes	3
<i>P. Cassey, P. García-Díaz, J.L. Lockwood and T.M. Blackburn</i>	
2 The Hierarchy-of-hypotheses Approach	14
<i>T. Heger and J.M. Jeschke</i>	
3 Hierarchy of Hypotheses or Hierarchy of Predictions? Clarifying Key Concepts in Ecological Research	19
<i>A.G. Farji-Brener and S. Amador-Vargas</i>	
4 Mapping Theoretical and Evidential Landscapes in Ecological Science: Levins' Virtue Trade-off and the Hierarchy-of-hypotheses Approach	23
<i>J. Griesemer</i>	
5 A Hierarchy of Hypotheses or a Network of Models	30
<i>S.M. Scheiner and G.A. Fox</i>	
6 The Hierarchy-of-hypotheses Approach Updated - a Toolbox for Structuring and Analysing Theory, Research and Evidence	38
<i>T. Heger and J.M. Jeschke</i>	

PART II: HYPOTHESIS NETWORK AND 12 FOCAL HYPOTHESES

- 7 A Network of Invasion Hypotheses** 49
M. Enders and J.M. Jeschke
- 8 Biotic Resistance and Island Susceptibility Hypotheses** 60
J.M. Jeschke, S. Debille and C.J. Lortie
- 9 Disturbance Hypothesis** 71
R. Nordheimer and J.M. Jeschke
- 10 Invasional Meltdown Hypothesis** 79
R.R. Braga, L. Gómez Aparicio, T. Heger, J.R.S. Vitule and J.M. Jeschke
- 11 Enemy Release Hypothesis** 92
T. Heger and J.M. Jeschke
- 12 Evolution of Increased Competitive Ability and Shifting Defence Hypotheses** 103
C. Müller
- 13 Tens Rule** 124
J.M. Jeschke and P. Pyšek
- 14 Phenotypic Plasticity Hypothesis** 133
O. Torchyk and J.M. Jeschke
- 15 Darwin's Naturalization and Limiting Similarity Hypotheses** 140
J.M. Jeschke and F. Erhard
- 16 Propagule Pressure Hypothesis** 147
J.M. Jeschke and J. Starzer

PART III: SYNTHESIS AND OUTLOOK

- 17 Synthesis** 157
J.M. Jeschke and T. Heger
- 18 Conclusions and Outlook** 167
T. Heger and J.M. Jeschke
- Index** 173
