

Chronology of Landmark Accomplishments

Contents

<i>Preface to the Second Edition</i>	vii
<i>Preface to the First Edition</i>	ix
<i>Acknowledgements</i>	xi
<i>Chronology of Landmark Accomplishments</i>	xv
1. INTRODUCTION	1.1-1.42
Characteristics of Fungi that are Different from other Kingdoms	1.2
Importance of Studying Fungal Diversity	1.3
Thallus Organization	1.4
Ultra-Structure and Composition of Fungal Cells	1.9
Nuclear Division	1.16
Nutritional Requirements	1.18
Reproduction	1.20
Nomenclature and Classification	1.37
2. DIVISION GYMNOAMYCOTA	2.1-2.11
Class Acrasiomycetes	2.1
Class Protosteliomycetes	2.4
Class Myxomycetes	2.7
3. DIVISION MASTIGOMYCOTA	3.1-3.37
Class Chytridiomycetes	3.1
Class Hyphochytridiomycetes	3.16
Class Plasmodiophoromycetes	3.18
Class Oomycetes	3.21

4. DIVISION AMASTIGOMYCOTA	4.1-4.71
Class Zygomycetes	4.1
Class Trichomycetes	4.11
Class Ascomycetes	4.13
Class Basidiomycetes	4.45
Form-Class Deuteromycetes	4.66
5. SIGNIFICANCE OF FUNGAL DIVERSITY	5.1-5.75
Fungi as Parasites	5.2
Fungi as Saprophytes	5.17
Fungi as Mutual Symbionts	5.29
Fungal Biotechnology in Industry, Agriculture and Environment Management	5.44
6. CULTURING AND PRESERVATION OF FUNGI	6.1-6.14
7. CONSERVATION OF FUNGAL DIVERSITY	7.1-7.7
<i>Glossary of Mycological Terms</i>	G.1-G.16
<i>Internet Resources for Fungi</i>	IR.1-IR.4
<i>Questions for Thought and Search for Knowledge</i>	Q.1-Q.15
<i>References</i>	R.1-R.9
<i>Organism and Taxa Index</i>	OTI.1-OTI.15
<i>Author Index</i>	AI.1-AI.4
<i>Subject Index</i>	SI.1-SI.11
