1	Identifying biodiversity: Why do we need field guides?	1
	<i>Anna Lawrence and William Hawthorne</i>	
	Introduction	1
	How do we 'know' nature? Classifying, naming and recognizing	2
	Field guides	3
	How to use this book	5
2	Producing a successful guide: Principles, purpose, people and process	11
	<i>Anna Lawrence and Patricia Norrish</i>	
	What makes a successful guide?	11
	Purpose	11
	Principles	12
	People	14
	Process	15
3	Planning and budgeting	23
	<i>Anna Lawrence, Ana Paula Lopes Ferreira, Maria Theresa Stradmann, Israel Vargas, Claudia Jordán, Marcelino Lima, Patricia Norrish, Sarah Gillett and Teonildes Nunes</i>	
	Introduction	23
	Step 1: Identify the needs and purpose of the guide with the stakeholders	24
	Methods for consulting	34
	Step 2: Review the scope in relation to available resources	41
	Step 3: Prepare an action plan and agreements with stakeholders	53
	Summary: Checklist of questions for the planning stage	56
4	Plant names and botanical publication	61
	<i>William Hawthorne and Stephen Harris</i>	
	Introduction	61
	Naming, identification and classification	61
	The spectrum of botanical literature	72
	Landmarks in the spectrum of field guides today	77
	Your field guide within the spectrum of types	87

5 Identification: Keys and other access methods	91
<i>William Hawthorne</i>	
Introduction	91
Types of guide: Types of access	95
Choosing access methods and the medium for your field guide	117
Conclusions	119
6 Plant characters suitable for field guides	121
<i>William Hawthorne</i>	
Introduction	121
Characters of younger stems and leaves	126
Characters of whole plants or plant populations	138
Conclusions	149
7 Information: Finding it and presenting it	151
<i>Anna Lawrence</i>	
Introduction	151
Kinds of information	151
Managing information in a database	152
Nomenclature	153
Selecting, sampling and recording your sources of information	156
Primary data: Information direct from people	158
Secondary sources: Information from existing documented sources	169
Ownership, intellectual property rights and copyright	173
Accuracy and reliability	174
Writing	176
8 Illustration	183
<i>William Hawthorne and Rosemary Wise</i>	
Introduction	183
The content of a picture: Some general principles	183
The options for illustrative material	191
Use of computers for handling illustrations	204
Conclusions: Choosing and using imagery	211
9 Testing the field guide	215
<i>Anna Lawrence, Pat Norrish, Maria Theresa Stradmann, Israel Vargas, Edwin Magariños, Jorge Costa, Claudia Jordán and Teonildes Nunes</i>	
Introduction	215
Overview of the testing process	216
Methodology	218
Organizing workshops for testing	223
Preparing materials for testing	229
Documentation: Instructions and forms for the test	232
Using the results of tests and workshops	234

10 Publishing the field guide	235
<i>Anna Lawrence</i>	
Introduction	235
Choosing a publisher	236
Do-it-yourself publication	237
Desktop publishing	238
Finalizing content	240
Printing	240
Getting your guide to the users	242
Follow-up: Tracking the success of your field guide	244
<i>List of acronyms and abbreviations</i>	249
<i>References</i>	251
<i>Index</i>	261

FIGURES

1.1 A page from the Virtual Field for Virtual Objects	6
2.1 The process of producing a field guide	16
2.2 Example of a botanical guide page layout	19
3.1 Indigenous villagers in Bajo Paraguri, Bolivian Amazon, prioritize species to include in their guide to useful plants	40
4.1 Illustration from the <i>Cleistanthus</i> field of 1876, an era when botany had not acquired a great deal of scientific rigour	42
5.1 Simple cross-access key to groups based on latex and leaf form	103
5.2 Screenshot of an e-key in action	105
5.3 The evolution of the Adansonian uniform key	116
6.1 Moderate levels of jargon in a field guide glossary	132
6.2 Leaf venation	135
6.3 Distinctive forms of two species of <i>Croton</i> native to West Africa	140
6.4 A minority of species have no vernacular names that can be illustrated with illustrations	141
6.5 Standardising use of terms for a new field guide	144
8.1 Sample guidelet pages from the formative notes in the DFL-FRI Field Guide Project for Central and South America	153
8.2 Sample guidelet pages (A5 or A6) tested in the DFL-FRI project for Ghanaian large trees	156
