

Contents

Preface	vii
Abbreviations	ix
1 Mitochondrial control of apoptosis: an overview By G. Kroemer	1
2 Nitric oxide, cytochrome <i>c</i> and mitochondria By G.C. Brown and V. Borutaite	17
3 Ceramide induces cytochrome <i>c</i> release from isolated mitochondria By C. Richter and P. Ghafourifar	27
4 Bcl-2 and Ca ²⁺ -mediated mitochondrial dysfunction in neural cell death By A.N. Murphy and G. Fiskum	33
5 Mitochondria, NO and neurodegeneration By M.F. Beal	43
6 Excitotoxicity and mitochondria By D.G. Nicholls, S.L. Budd, M.W. Ward and R.F. Castilho	55
7 Apoptosis and necrosis: different execution of the same death By P. Nicotera, M. Leist and E. Ferrando-May	69
8 The mitochondrial permeability transition: the brain's point of view By J.M. Dubinsky, N. Brustovetsky, V. Pinelis, B.S. Kristal, C. Herman and X. Li	75
9 Mitochondrial dysfunction in Parkinson's disease By J.T. Greenamyre, G. MacKenzie, T.-I. Peng and S.E. Stephans	85
10 Secondary abnormalities of mitochondrial DNA associated with neurodegeneration By S.J. Tabrizi and A.H.V. Schapira	99
11 Mutations of the mitochondrial genome: clinical overview and possible pathophysiology of cell damage By S.M. Rothman	111
12 <i>In vivo</i> measurements of mitochondrial function and cell death following hypoxic/ischaemic damage to the new-born brain By C.E. Cooper	123

13	Mitochondria in heart ischaemia and aging By R.G. Hansford, N. Tsuchiya and S. Pepe	141
14	Mitochondrial dysfunction in sepsis By M. Singer and D. Brealey	149
15	The mitochondrial permeability transition pore By M. Crompton, S. Virji, V. Doyle, N. Johnson and J.M. Ward	167
16	The mitochondrial permeability transition: its molecular mechanism and role in reperfusion injury By A.P. Halestrap	181
17	Confocal microscopy of the mitochondrial permeability transition in necrotic and apoptotic cell death By J.J. Lemasters, T. Qian, L.C. Trost, B. Herman, W.E. Cascio, C.A. Bradham, D.A. Brenner and A.-L. Nieminen	205
	Subject index	223
