

TABLE OF CONTENTS

Preface

vii

CHAPTER 1 POPULATION ECOLOGY..... 1

- Introduction..... 2
- Core Concept: Genetic Variation Within Local Populations..... 3
- Core Concept: Metapopulation..... 13
- Review Questions..... 31
- References..... 32

CHAPTER 2 SPECIES INTERACTIONS 35

- Introduction..... 36
- Core Concept: Plant-Animal Interactions 36
- Core Concept: Species Interactions And Chemical Mixtures..... 52
- Review Questions..... 76
- References..... 77

CHAPTER 3 COMMUNITY ECOLOGY..... 79

- Introduction..... 80
- Core Concept: Community Assembly..... 81
- Core Concept: Biodiversity 92
- Review Questions 112
- References..... 113

CHAPTER 4 BIODIVERSITY..... 115

- Introduction..... 116
- Core Concept: Overview of Biodiversity 117
- Core Concept: Climate Change In Biodiversity..... 130
- Review Question 145

• References	146
--------------------	-----

CHAPTER 5 EVOLUTION AND SELECTION 149

• Introduction	150
• Core Concepts: Evolution.....	151
• Core Concepts: Natural Selection	162
• Review Questions	188
• References	189

CHAPTER 6 ORIGIN OF GENETIC VARIATION 191

• Introduction	192
• Core Concept: Mendel's Genetics	193
• Core Concept: Epistasis	198
• Core Concept: Gene-Environment Interactions	206
• Core Concept: Population Genetics	211
• Review Questions	237
• References	238

CHAPTER 7 MOLECULAR EVOLUTION 241

• Introduction	242
• Core Concept: Molecular Clock	243
• Core Concept: Evolution of Gene Expression	252
• Review Questions	273
• References	274

INDEX..... 277
