

Contents

Subject	Page
List of Figures.....	7
List of Tables	9
CHAPTER ONE General introduction	
Wadi vegetation in Eastern Desert	11
Populations in plant communities.....	15
Phenology in desert plants.....	17
References.....	23
CHAPTER TWO Study area	
Location.....	35
Geology and Geomorphology	36
Climate	38
Water resources	43
References	45
CHAPTER THREE Vegetation of Wadi Degla and its tributaries	
Abstract	47
Introduction	48
Material and Methods	50
Floristic Features	51
Soil analysis	51
Vegetation	51
Spatial distribution	54
Results	55
Floristic features	55
Characteristic families	55
Vegetation analysis	58
Soil-Vegetaion relationship.....	65
Spatial distribution	72
Discussion	73
References	85
Appendix.....	90
CHAPTER FOUR Variation of size class structure and phenological traits of plant populations in different habitat types in the wadi ecosystem	
Abstract	100
Introduction	101
Material and Methods	104
Populations	104

Phenology	105
Results	110
Plant populations	110
Phenological diversity	113
Phenology – environment relationship.....	119
Size class – phenology relationship	122
Fruit setting	129
Diversity of flowering phenology.....	132
Discussion	132
References	143

CHAPTER FIVE Reproductive phenology of the gynodioecious *Ochradenus baccatus* Delile (Resedaceae)

Abstract	150
Introduction	151
Material and Methods	153
Study species	153
Study site	153
Population demography	154
Phenology	154
Germination	155
Results	156
Population	156
Phenology.....	156
Germination	162
Discussion.....	162
References	168
Appendix	172
General discussion	177
References	188
Summary	195
Arabic summary.....	198
