Growth, Morphogenesis and Pathogenicity

1 Biomechanics of Invasive Hyphal Growth NICHOLAS P. MONEY (With 10 Figures)	3
2 Control of Cell Polarity and Shape YI-JUN SHEU and MICHAEL SNYDER (With 10 Figures)	19
3 Signal Transduction and Morphogenesis in <i>Candida albicans</i> ALISTAIR J.P. BROWN and NEIL A.R. GOW (With 5 Figures)	55
4 Ions as Regulators of Growth and Development BRIAN D. SHAW and HARVEY C. HOCH (With 3 Figures)	73
5 Cell Biology of Fungal Infection of Plants ADRIENNE R. HARDHAM (With 11 Figures)	91
6 Colonial Growth of Fungi STEFAN OLSSON (With 13 Figures)	125

Structural Continuum

7 Fungal Hydrophobins NICHOLAS J. TALBOT (With 4 Figures)	145
8 Cell Wall of Human Fungal Pathogens and its Interaction with Host Extracellular Matrix W. LAJEAN CHAFFIN (With 2 Figures)	161
9 Molecular Organization and Construction of the Fungal Cell Wall HANS DE NOBEL, J. HANS SIETSMA, HERMAN VAN DEN ENDE, and FRANS M. KLIS (With 2 Figures)	181
10 Bridging the Divide: Cytoskeleton-Plasma Membrane-Cell Wall Interactions in Growth and Development I. BRENT HEATH (With 2 Figures)	201
11 Microtubules and Molecular Motors IN HYUNG LEE and MICHAEL PLAMANN (With 3 Figures)	225

12 Motile Tubular Vacuole Systems ANNE E. ASHFORD, LOUISE COLE, and GEOFFREY J. HYDE (With 3 Figures)	243
13 Genomics for Fungi JOAN W. BENNETT and JONATHAN ARNOLD (With 3 Figures)	267
Biosystematic Index	299
Subject Index	301
