

CONTENTS

Import, Folding and Degradation of Proteins by Mitochondria	
G. Schatz	1
Protein Complexes Involved in Import of Mitochondrial Preproteins	
P.J.T. Dekker	9
Protein Targeting into and within Chloroplasts	
S.M. Theg	17
Chaperone Action in Folding Newly-Translated Cytosolic Proteins in Bacteria and Eukaryotes	
A.L. Horwich	41
Biogenesis of Peroxisomes	
S. Subramani	65
Molecular Dissection of Clathrin Coat Formation and Receptor Sorting	
T. Kirchhausen, C. Brunner and A. Renold	77
A Function for EGF-Induced Eps15 Ubiquitination in Endocytosis	
S. van Delft, A.J. Verkleij and P.M.P. van Bergen en Henegouwen	85
The Role of α_2 Macroglobulin Receptor Associated Protein as a Chaperone for Multifunctional Receptors	
L. Ellgaard, P. Stage, M. Etzerodt and H.C. Thøgersen	95
Characterization of the Gene VII and Gene IX Minor Coat Proteins from Bacteriophage M13	
C.J.A.M. Wolfs, M.C. Houbiers, R.B. Spruijt and M. Hemminga	105
Lipoprotein Sorting in <i>Escherichia coli</i>	
A. Seydel and A.P. Pugsley	115

In Vitro Studies of the Interactions between Signal Peptides and
Signal Recognition Factors

N. Zheng, J.L. Feltham and L.M. Gierasch 125

A PreS1-Specific Sequence Determines the Dual Topology of the Hepatitis B
Virus Large Envelope Protein and Binds the Heat Shock Protein Hsc70
H. Löffler-Mary, M. Werr and R. Prange 141

Characterization of Components of the General Secretion Pathway
of *Aeromonas hydrophila*

S.P. Howard, I.C. Schoenhofen, R. Jahagirdar and C. Stratilo 151

Do the Type I Signal Peptidases of *Bacillus subtilis* Compete for
Binding and Cleavage of Secretory Precursor Proteins ?

A. Bolhuis, H. Tjalsma, G. Venema, S. Bron and J-M. van Dijk 165

Studies on N-Glycosylation of Proteins in the Endoplasmic Reticulum
Qi Yan, H. Park, G.D. Prestwich and W.J. Lennarz 175

Role of COP Coats and GTPases in Transport of Cargo through
the Early Secretory Pathway

W.E. Balch 185

Mapping the Golgi Retention Signal in the Cytoplasmic Tail of the
Uukuniemi Virus G1 Glycoprotein

A.M. Andersson and R.F. Pettersson 199

REP-Mediated Protein Prenylation

U. Bialek, B.E. Bauer, M. Miaczynska, S. Lorenzetti, R.J. Schweyen
and A. Ragnini 209

Development of a Positive Screen for the Identification of Suppressive
Mutations in Secretion Defective Strains of *Pseudomonas aeruginosa*

R. Voulhoux, D. Duché, V. Géli, A. Lazdunski and A. Filloux 219

Mitotic Division of the Golgi Apparatus

G. Warren 231

Vacuole Inheritance: A New Window on Interorganelle Traffic Z. Xu, C. Ungermann and W. Wickner	239
Sea Urchin Nuclear Envelope Assembly in Vitro P. Collas	245
Cell Vesicle Trafficking and Bacterial Protein Toxins C. Montecucco	255
Pore-Forming Antimicrobial Peptides and Polypeptides: Mechanisms of Insertion into Membranes and Mode of Action L. Letellier	267
Potassium Channels in <i>Escherichia coli</i> M.J. Maclean, L.S. Ness, S. Miller and I.R. Booth	283
A Link between Fatty Acid Synthesis and Organelle Structure in Yeast M. Lampl, S. Eder, R. Schneider and S.D. Kohlwein	291
Lipid Translocation from the Cytosolic Leaflet of the Plasma Membrane to the Cell Surface by Multidrug Transporters G. van Meer, R. Raggars, H. Sprong and A. van Helvoort	301
Mycobacterial Glycopeptidolipid Interactions with Membranes: an Air-Water Monolayer Study by FTIR Spectroscopy I. Vergne, B. Desbat, J-F. Tocanne and G. Lan��elle	309
Consequences of Hydrophobic Matching on the Lateral Distribution of Lipids around Bacteriorhodopsin Reconstituted in DLPC/DSPC Mixtures F. Dumas, M-C. Lebrun, M.M. Sperotto, O.G. Mouritsen and J-F. Tocanne	321
Translocation of Phospholipids between the Endoplasmic Reticulum and Mitochondria in Yeast G. Tuller, G. Achleitner, B. Gaigg, A. Krasser, E. Kainersdorfer, S.D. Kohlwein, A. Perktold, G. Zellnig and G. Daum	333

Lipid Peroxidation in Myocardial Cells under Ischemia and Oxidative Stress.

The Effect of Allopurinol and Oxypurinol

J.A. Post, C.Th.W.M. Schneijdenberg, Y.C.M. de Hingh, R.van Rooijen,

J.R. Lahpor, J.A.F. Op den Kamp and A.J. Verkleij.
