

CONTENTS

Preface		vii
Chapter 1	The Biology of Telomeres in Multipotential Stromal Cells <i>Dimitrios Kouroupis, Sarah M. Churchman and Elena A. Jones</i>	1
Chapter 2	Telomerase and Telomere Maintenance in the Blight Fungus <i>Ustilago Maydis</i> <i>Patricia Sánchez-Alonso, Candelario Vázquez-Cruz, Guillermo Horta-Valerdi and Plinio Guzmán</i>	27
Chapter 3	Telomere Length in Lymphoid Malignancies: A Comparative Analysis <i>Julieta Panero, Patricia Dos Santos and Irma Slavutsky</i>	53
Chapter 4	An Overview of the Biological Functions of Telomeres <i>Alejandro D. Bolzán</i>	79
Chapter 5	Human Telomeres: Structure, Function and Targeting of Telomere DNA/RNA <i>Yan Xu</i>	99
Chapter 6	Alternative Lengthening of Telomeres: Unraveling the Genetic Basis of ALT <i>F. Mathias Bollmann</i>	123
Chapter 7	Adjustment of Telomere Length by Cell-Matrix Interaction <i>Hae Ri Choi and Sang Chul Park</i>	137
Index		147
