Preface.....	xi

Epigenetic Regulation of Gene Expression in Human Cells by Noncoding RNAs. 1

Stuart Knowing and Kevin V. Morris

I. Introduction to ncRNA.....	1
II. Epigenetics and ncRNAs.....	3
III. Long Intergenic Noncoding RNAs and Epigenetic Control of Gene Transcription	4
References	8

Small RNA-Induced Transcriptional Gene Regulation in Mammals: Mechanisms, Therapeutic Applications, and Scope Within the Genome 11

Victoria A. Green and Marc S. Weinberg

I. Introduction	12
II. Mammalian Small RNA Biogenesis Pathways.....	13
III. Mechanisms of Small RNA-Induced Transcriptional Regulation	16
IV. Therapeutic Application of TGS	25
V. The Scope of TGS Therapeutics	30
VI. Conclusions	37
References	38

MicroRNA Function in the Nervous System 47

Roberto Fiore, Sharof Khudayberdiev, Reuben Saba, and Gerhard Schratt

I. Introduction	48
II. miRNAs in Neural Differentiation	49
III. miRNAs in Postmitotic Neurons	60
IV. The Roles of miRNA in Neurological Diseases	69
References	91

The Role of MicroRNAs in Viral Infection 101

Ashley P.E. Roberts, Andrew P. Lewis, and
Catherine L. Jopling

I. Introduction	102
II. Regulation of miRNAs and Their Association with Disease	108
III. Introduction to Viral Infection	111
IV. Viral miRNAs	113
V. Regulation of Cellular miRNAs by Viral Infection	122
VI. Regulation of Viruses by Cellular miRNAs	127
VII. Conclusions	130
References	131

Toward a Durable Treatment of HIV-1 Infection Using RNA Interference 141

Julia J.M. Eekels and Ben Berkhout

I. RNAi: From Natural Pathway to Therapeutic Method	142
II. Antiviral RNAi Strategies: Toward a Gene Therapy for HIV-1	144
III. Where to Target the HIV-1 RNA Genome?	147
IV. Combinatorial RNAi Approaches	148
V. Targeting Cellular Cofactors of HIV-1 Replication	149
VI. Preclinical Test Systems and Safety Concerns	152
VII. Safety Issues Raised in Clinical Trials	153
VIII. Gene Therapy Trials for HIV-AIDS	154
IX. Conclusion	155
References	155

When Cellular Networks Run Out of Control: Global Dysregulation of the RNAi Machinery in Human Pathology and Therapy. 165

Stefan Mockenhaupt, Nina Schürmann, and Dirk Grimm

I. Introduction: Quis Custodiet Ipsos Custodes or Who Watches the Watchmen?	166
II. Control of Individual miRNAs and RNAi Components	170
III. Global Dysregulation of Key RNAi Factors in Human Disease	179
IV. Quantitative Interference of Viruses with Host RNAi Factors	210
V. Adverse Effects in Gene/RNAi Therapy Studies	218

VI. Outlook: Relevance for Molecular Biology and Clinical Translation of RNAi	229
References	231
Index.....	243

Support is provided by the German Research Foundation (DFG) and the European Union.

Ben Erdreich, Laboratory of Experimental Virology, Department of Medical Microbiology, Center for Infectious and Immunity Amsterdam, Academic Medical Center, University of Amsterdam, Amsterdam, The Netherlands (14)

Julia J.M. Bokela, Laboratory of Experimental Virology, Department of Medical Microbiology, Center for Infectious and Immunity Amsterdam, Academic Medical Center, University of Amsterdam, Amsterdam, The Netherlands (14)

Roberto Florio, Interdisciplinary Center for Neurosciences, Senior Staff Scientist, Junior Group, Universität Heidelberg, and Institut für Neurosciences, Universitätsklinikum Heidelberg, Im Neuenheimer Feld 268, Heidelberg, Germany (47)

Victoria A. Green, Anthrax Oral Therapy Research Unit, Department of Molecular Medicine and Microbiology, University of the Witwatersrand, Johannesburg, South Africa (14)

Dirk Grehm, University of Heidelberg, Cluster of Excellence CellNetworks, Department of Infectious Diseases, Virology, Heidelberg, Germany (14)

Catherine L. Jopling, School of Pharmacy, Centre for Biomedical Sciences, University of Nottingham, Nottingham NG7 2RD, United Kingdom (10)

Shahid Khudayberdiev, Interdisziplinäres Zentrum für Neurowissenschaft, Senior Staff Scientist, Junior Group, Universität Heidelberg, and Institut für Neurosciences, Universitätsklinikum Heidelberg, Im Neuenheimer Feld 268, Heidelberg, Germany (47)

Shunt Kurohara, Department of Molecular and Experimental Medicine, The Scripps Research Institute, La Jolla, California, USA (7)

Andrew D. Lewis, School of Pharmacy, Centre for Biomedical Sciences, University of Nottingham, Nottingham NG7 2RD, United Kingdom (10)

Stefan Hachenstuhl, University of Heidelberg, Cluster of Excellence CellNetworks, Department of Infectious Diseases, Virology, Heidelberg, Germany (14)

Karin V. Morris, Department of Molecular and Experimental Medicine, The Scripps Research Institute, La Jolla, California, USA (7)

Ashley R.E. Roberts, School of Pharmacy, Centre for Biomedical Sciences, University of Nottingham, Nottingham NG7 2RD, United Kingdom (10)
