

Contents

Part 1 Extended Summaries (001)

The Precise Age of the Fezouata Lagerstätte, Lower Ordovician, Morocco

*Mustapha AKODAD, Khadija EL HARIRI, Juan Carlos GUTIÉRREZ-MARCO,
Bertrand LEFEBVRE, Oliver LEHNERT, Emmanuel L.O. MARTIN,
Hendrik NOWAK & Thomas SERVAIS* (003)

The Post-Extinction Anji Biota (Zhejiang, China) and a Wider Hirnantian Sponge Mega-Community

Joseph P. BOTTING, Lucy A. MUIR, ZHANG Yuandong & WANG Wenhui (009)

Geographic Disparity of Graptolite Faunas During the Late Katian Biodiversification Event

CHEN Qing & FAN Junxuan (013)

Melanosclerites: A Special Kind of Paleozoic Microfossil and New Discoveries in China

DENG Qiaoyan, TANG Peng, WANG Wenhui & ZHAO Ran (017)

Rasophycus carleyi on the Edge of the Siberian Platform

Andrei V. DRONOV & Veronika B. KUSHLINA (021)

Geochemical Evidence for Ordovician Oxygenation: Another Driver of the 'Great Ordovician Biodiversification Event'

Cole T. EDWARDS (027)

Cephalopod Palaeobiogeography in Northeastern Peri-Gondwana During the Middle-Late Ordovician

FANG Xiang, CHEN Tingen, ZHANG Yunbai, ZHANG Yuandong & LI Wenjie (029)

Early Evolution of Nautiloid Faunas Through the Cambrian-Ordovician Transition: A General Overview

FANG Xiang, ZHANG Yuanbai, CHEN Tingen & ZHANG Yuandong (033)

Geometric Morphometric Analysis of *Protoconites* from the Lower Cambrian Yanjiahe Formation, Yichang, Hubei, China

*GUO Junfeng, CHEN Yanlong, SONG Zuchen, ZHANG Zhifei,
ZHEN Yajuan & YAO Xiaoyong* (039)

Ecology, Biofacies, Biogeography and Systematics of Micromorphic Lingulate Brachiopods from the Ordovician (Darriwilian to Sandbian) of South-Central China

*Lars E. HOLMER, Mansoureh G. POUR, Leonid E. POPOV,
ZHANG Zhiliang & ZHANG Zhifei* (041)

A High-Performance Parallel CONOP Program Based on a Hybrid Strategy of Simulated Annealing and Genetic Algorithm

HOU Xudong, FAN Junxuan, YANG Jiao & HUANG Zhihao (043)

Ecological Gradient of a Brachiopod Fauna from South China after the End-Ordovician Mass Extinction and Its Significance

HUANG Bing, David A. T. HARPER, RONG Jiayu & ZHAN Renbin (047)

Integrated Conodont Biostratigraphy and Carbon Chemostratigraphy of the Upper Ordovician Shiyanhe Formation at the Sigang Section, Neixiang, Henan, Central China

JING Xiuchun, Svend STOUGE & YANG Zhihua (049)

Keratose-like Sponges in Lower Paleozoic Successions and Their Implications for Paleocology and Carbonate Sedimentology

LEE Jeong-Hyun & HONG Jongsun (053)

The Lower–Middle Ordovician $\delta^{18}\text{O}$ Record and Its Relation to Diversification Pulses of the GOBE

*Oliver LEHNERT, WU Rongchang, Peep MÄNNIK, John E. REPETSKI,
Michael M. JOACHIMSKI, Mikael CALNER, Björn KRÖGER, Thomas SERVAIS,
David A. T. HARPER & ZHAN Renbin (059)*

Exceptional Preservation in the Later Cambrian: Insights into a Cryptic Phase of the Early Evolution of Animals

Rudy LEROSEY-AUBRIL (063)

Carbon Isotope Chemostratigraphy of the Ordovician–Silurian Boundary Strata of the Yiliu-1 Drillcore, Yichang, Hubei, South China

LI Chao, FAN Junxuan, ZHANG Yuandong & SUN Zongyuan (069)

End-Ordovician Mass Extinction — Role of the Deep-Water Sponges

*LI Lixia, Dorte JANUSSEN, ZHAN Renbin, WU Rongchang,
WANG Guangxu, WEI Xin, GONG Fangyi & Joachim REITNER (073)*

The First Report of Ordovician Reefs from Peninsular Malaysia

LI Qijian & Masatoshi SONE (081)

Slump Structures of Late Ordovician Age in the Putangkou Section, Zhejiang Province, Southeastern China, and Their Geological Implications

LI Wenjie, ZHANG Yuandong, CHEN Jitao & YUAN Wenwei (085)

Symbiotic Interactions in Late Ordovician Coral *Catenipora* from Xiazhen Formation, South China

LIANG Kun (091)

Paleoceanographic Background for the Initial Stage of the ‘Great Ordovician Biodiversification Event’: Sedimentary and Geochemical Evidence from South China

LIU Jianbo, DONG Yiting, LI Jiateng & ZHAN Renbin (093)

New Data on the Carbon Isotope Chemostratigraphy of Floian–Darriwilian Successions on the Yangtze Platform, South China

LUAN Xiacong, WU Rongchang & ZHAN Renbin (095)

Graptolite Biostratigraphy of the Hulo Formation (Middle Ordovician) in Northwestern Zhejiang, South China

MA Xuan & ZHANG Yuandong (101)

Graptolites in the Making — On the Origin and Early Diversification of the Pterobranchia

Jörg MALETZ (107)

Agglutinated Tubes as a Signature Feature of Tremadocian (Early Ordovician) Communities

Lucy A. MUIR & Joseph P. BOTTING (113)

Dispersal and Endemic Diversification: Differences in Sponge Faunas Between the Cambrian Explosion and the GOBE

Lucy A. MUIR & Joseph P. BOTTING (115)

CA-IDTIMS Geochronology of Lower Ordovician Subsurface Stratigraphy in the Canning Basin, Western Australia and Integration with Conodont Biostratigraphy

Leon S. NORMORE, ZHEN Yongyi, Louisa M. DENT, James CROWLEY,

Ian G. PERCIVAL & Michael T. D. WINGATE (123)

Early Ordovician Conodonts and Graptolites from Northeast Vietnam

PHONG Nguyen Duc, Jerzy DZIK Mark WILLIAMS & Toshifumi KOMATSU (127)

The Beginning of the Ordovician Evolutionary Radiation in the Baltic Region: Substrate Revolution, Explosive Increase in Diversity of Stalked Echinoderms, and the Cyanobacterial Origin of Hardgrounds

Sergey ROZHNOV (135)

The 'Great Ordovician Biodiversification Event' (GOBE): The History of a Term*Thomas SERVAIS & David A. T. HARPER* (143)**'Hidden Diversity' and the GOBE: In the Aspect of Origins of Automicrites***SHEN Yuefeng & Fritz NEUWEILER* (147)**Latest Darriwilian to Early Sandbian (Late Ordovician) Graptolites and Biostratigraphy of the Miaopo Formation in Chengkou, Northern Chongqing, and Yichang, Western Hubei Province, China***SONG Yanyan, ZHANG Yuandong, Daniel GOLDMAN & LIU Pengju* (149)**The Brachiopod *Altaethyrella* from the Late Katian Hadabulaktag Formation in the Tarim Basin, Northwest China, and Its Paleogeographical Significance***Colin D. SPROAT & ZHAN Renbin* (155)**Epibole vs. Ecological Turnover: Contrasting Ecosystem Impacts of Biotic Invasions on Ordovician Communities***Alycia L. STIGALL* (161)**Upper Ordovician Bentonites in South China and North China***SUN Zongyuan & FAN Junxuan* (165)**Lower Paleozoic Bioerosion Trace Fossils from Estonia, Baltica***Ursula TOOM, Olev VINN & Olle HINTS* (171)**An Early Ordovician Fauna from Langao County, Shaanxi Province, China***WANG Jian, WANG Xin, GU Pingyang, ZHUANG Yujun,
CHEN Ruiming, LI Lin & GUO Yapeng* (173)**Early Silurian Graptolite Biostratigraphy and Ecostratigraphy of Ganluo on the Southwestern Margin of the Upper Yangtze Platform, China***WANG Wenhui, TANG Peng, DENG Qiaoyan & ZHAO Ran* (177)

A New Conodont Biozone Classification of the Ordovician System in South China

WANG Zhihao, ZHEN Yongyi, Stig M. BERGSTRÖM,
WU Rongchang, ZHANG Yuandong & MA Xuan (183)

Lower Silurian (Rhuddanian) Trilobites of Xichuan (East Qinling), Western Henan, Central China

WEI Xin & ZHAN Renbin (189)

Middle and Late Ordovician Conodonts from the Hulo and Yenwashan Formations, Western Zhejiang, Southeastern China

WU Rongchang, WANG Zhihao, ZHANG Yuandong & SONG Yanyan (195)

A Tremadocian Acritarch Assemblage from Songzi, Hubei Province, China

YAN Kui, LI Jun, Thomas SERVAIS & SHAN Longlong (199)

Sluggish Oceanic Oxygenation Delayed Faunal Colonization During the Cambrian Explosion in the South China Block

ZHANG Junpeng, FAN Tailiang & ZHANG Yuandong (201)

Spatial Distributions of the Lower–Middle Ordovician Meitan and Dawan Formations in the Upper Yangtze Region

ZHANG Linna, FAN Junxuan, CHEN Qing & ZHANG Yuandong (207)

Distribution and Formation Mechanism of Widespread Siliciclastic Marine Red Beds in the Middle Telychian of the Eastern Yangtze Platform

ZHANG Xiaole, LIU Jianbo, WANG Yi & RONG Jiayu (213)

Cambrian to Lower Ordovician Reefs on the Yangtze Platform, South China Block, and Their Controlling Factors

ZHANG Yuanyuan, LI Qijian, LI Yue, Wolfgang KIESSLING & WANG Jianpo (215)

- The Late Ordovician Brachiopod *Rongatrypa xichuanensis* from Xichuan, Henan Province, China**
 ZHANG Yuchen, ZHAN Renbin & HUANG Bing (217)
- Occurrences of Cambrian and Ordovician Radiolarians in China: A Brief Overview**
 ZHANG Zhao, LUO Hui, WANG Yujing & ZHANG Yuandong (223)
- Paleoecological Complexity During the Cambrian Explosion: Evidence from Brachiopods**
 ZHANG Zhifei & Lars E. HOLMER (229)
- Application of X-Ray Synchrotron Microtomography to Three-Dimensionally Preserved Late Ordovician Graptolite Specimens from Hunan, South China**
 ZHAO Ran, WANG Wenhui, ZHANG Muhui & DENG Qiaoyan (231)
- Florian (Early Ordovician) Conodonts of the Canning Basin, Western Australia — Biostratigraphy and Palaeobiogeographic Affinities with Chinese Faunas**
 ZHEN Yongyi, Ian G. PERCIVAL, Leon S. NORMORE & Louisa M. DENT (235)
- Latest Cambrian–Earliest Ordovician Conodonts and Microbrachiopods from Northern Victoria Land, Antarctica**
 ZHEN Yongyi, Ian G. PERCIVAL, Jusun WOO & Tae-Yoon S. PARK (243)
- The Fate of the Cambrian Evolutionary Fauna: Abrupt Extinction vs. Gradual Demise**
 ZHU Maoyan (245)
- The Furongian Guole Konservat-Lagerstätte from South China**
 ZHU Xuejian, Rudy LEROSEY-AUBRIL & Javier ORTEGA-HERNÁNDEZ (247)

Part 2 Guides for Mid- and Post-Conference Field Trips (251)

Guide for the Mid-Conference Field Trip of the IGCP Project 653 — Annual Meeting 2017

*ZHANG Yuandong, CHEN Qing, FAN Junxuan, WANG Xiaofeng,
LI Qijian, ZHANG Linna & FANG Xiang* (253)

Field Guide for Cambrian and Ordovician Succession in SW Hubei and NW Hunan Provinces, Central China

*ZHAN Renbin, LIU Jianbo, ZHU Xuejian, WANG Yi,
ZHANG Yuandong & LUAN Xiaocong* (277)

Appendix: Conference Programme (361)
