

PART 4: International Best Practices: Land Degradation Assessment Tools and Conservation Agriculture Practices for Integrated Ecosystem Management in Dryland Ecosystems	81
Chapter 6: Land Degradation Assessment in Drylands: An Example of the Application of Integrated Ecosystem Management C. Licona Manzur et al	82
Chapter 7: Mitigating Land Degradation and Improving Land and Environmental Conditions via Field-Practical Methods of Conservation Agriculture D. McGarry	96
PART 5: Integrated Ecosystem Management in Practice: International Case Studies	109
Chapter 8: Ecosystem Management in the Great Basin of the United States F.E. Busby	110
Chapter 9: Legislative Aspects of Integrated Ecosystem Management: the Murray Darling Basin in Australia I. Hannam	124
Chapter 10: Environmental Planning and Management in Pakistan: A Need to Consider Fresh Approaches Parvez Hassan	141
PART 6: A Brief Overview of Ongoing Bilateral Partnerships Related to Land Degradation in the Western Region of the People's Republic of China	153
Case Study 1: The Theory and Practice of Integrated Management in the Coastal Zones in Xiamen, Fujian Province Li Haiqing	154
Case Study 2: Application and Practice of the Integrated Ecosystem Management in the Sustainable Forestry Development Project Wang Zhouxu	155
Case Study 3: A Case Study and Future Programming in the Canada-People's Republic of China Sustainable Agriculture Development Project B. Kirychuk, G. Luciuk, B. Houston and B. Fritz	158
Case study 4: Alxa League Environmental Rehabilitation and Management Project: an Australian Aid Project A.R. Williams	160
Case Study 5: A People-Centered Approach to Watershed Interventions: Loess Plateau Wendao Cao and Joanna Smith	162
Case Study 6: Gansu and Xinjiang Pastoral Development Project: A Multidonor Collaboration Sari Soderstrom	164
PART 7: The Experience and Approaches of Ten Agencies Whose Mandates Include Natural Resource Management in the Western Region of the People's Republic of China	166
Presentation A: Strategy for the Development of the Western Region of the People's Republic of China Yu Hejun	167
Presentation B: Management Practices of the Government of the People's Republic of China in Ecological Restoration and Environmental Protection Sun Zhen	169
Presentation C: Science and Technology and the Ecological Environment of the People's Republic of China: Problems and Prospects Shen Jianzhong	170
Presentation D: Ecological Restoration and Preventing Desertification in the Western Region of the People's Republic of China Liu Tuo	171

Presentation E: Applying Integrated Ecosystem Management to Conservation in the Western Region of the People's Republic of China Cui Shuhong	172
Presentation F: An Integrated Evaluation of the Ecosystems in the Western Region of the People's Republic of China Liu Jiyuan	173
Presentation G: A Strategy for Combating Soil Erosion and for Soil and Water Conservation in the Development of the Western Region of the People's Republic of China Tong Weili	174
Presentation H: Land Use Planning in the People's Republic of China Dong Zuoji	175
Presentation I: Introduction to the Legal Means for Treating Land Degradation in the People's Republic of China Wang Zhenjiang	176
Presentation J: Protection, Rehabilitation, and Management of the Dry Farmland and Grassland Ecosystems in the Western Region of the People's Republic of China Gao Shangbin	177
 PART 8: Provincial Measures for Implementing Integrated Ecosystem Management to Combat Land Degradation	 178
Ningxia: Executing Ideas about Integrated Ecosystem Management in Ningxia Chang Limin	179
Qinghai: Plans to Control Land Degradation in Qinghai Province Li Sandan	185
Sha'anxi: Planning and Implementing the People's Republic of China-Global Environment Facility Partnership on Land Degradation in Dryland Ecosystems in Sha'anxi Province Hao Huaixiao	190
Gansu: Implementing the Integrated Ecosystem Management Project in Gansu Province Zhao Jianlin	195
Inner Mongolia: Strengthening Integrated Ecosystem Management in Inner Mongolia Bai Tong	203
Xinjiang: The Concept of Integrated Ecosystem Management as an Aid to Combating Land Degradation in Xinjiang Yan Xiaoshou	208
 PART 9: Integrated Ecosystem Management: Some Conclusions on its Relevance to the People's Republic of China	 212
Chapter 11: Integrated Ecosystem Management as an Alternative Approach for the People's Republic of China: A Post Workshop Perspective GEF-ADB Team	213
Chapter 12: Integrated Ecosystem Management Workshop Review M. Douglas	241
 ANNEX	 245
Summary of Volunteer Papers Received	246
