Why Should I Buy This Book? xi

## INTRODUCTION

### 1 Introduction to the Exam 3

|                                              |   |
|----------------------------------------------|---|
| General Information                          | 3 |
| The AP Exam                                  | 4 |
| Grades on the Exam                           | 6 |
| Hints for Taking the Multiple-Choice Section | 7 |
| Hints for Taking the Free-Response Section   | 7 |

## DIAGNOSTIC TEST

### 2 Diagnostic Test 15

|                           |    |
|---------------------------|----|
| Multiple-Choice Questions | 15 |
| Reading Period            | 38 |
| Writing Period            | 39 |
| Answer Key                | 40 |
| Answer Explanations       | 41 |

## SUBJECT AREA REVIEW

### 3 Biochemistry 61

|                                      |    |
|--------------------------------------|----|
| Introduction                         | 61 |
| Atomic Structure                     | 61 |
| Bonding                              | 62 |
| Polar and Nonpolar Molecules         | 62 |
| Hydrophobic and Hydrophilic          | 62 |
| Properties of Water                  | 63 |
| pH                                   | 64 |
| Isomers                              | 66 |
| Organic Compounds                    | 66 |
| Enzymes and Metabolism               | 73 |
| Multiple-Choice Questions            | 79 |
| Answers to Multiple-Choice Questions | 83 |
| Free-Response Questions              | 85 |

### 4 The Cell 87

|                                      |     |
|--------------------------------------|-----|
| Introduction                         | 87  |
| Cell Theory                          | 87  |
| How We Study Cells                   | 88  |
| Structure and Function of the Cell   | 90  |
| Transport Into and Out of the Cell   | 95  |
| Cell Communication                   | 101 |
| Multiple-Choice Questions            | 103 |
| Answers to Multiple-Choice Questions | 107 |
| Free-Response Questions              | 109 |
| Typical Free-Response Answers        | 109 |

### 5 Cell Respiration 111

|                                            |     |
|--------------------------------------------|-----|
| Introduction                               | 111 |
| ATP—Adenosine Triphosphate                 | 112 |
| Glycolysis                                 | 112 |
| Anaerobic Respiration—Fermentation         | 113 |
| Aerobic Respiration                        | 114 |
| The Krebs Cycle                            | 114 |
| Structure of the Mitochondrion             | 116 |
| NAD and FAD                                | 116 |
| Aerobic Respiration                        | 116 |
| Oxidative Phosphorylation and Chemiosmosis | 118 |
| Summary of ATP Production                  | 119 |
| Multiple-Choice Questions                  | 120 |
| Answers to Multiple-Choice Questions       | 124 |
| Free-Response Question                     | 126 |
| Typical Free-Response Answer               | 126 |

### 6 Photosynthesis 127

|                                               |     |
|-----------------------------------------------|-----|
| Introduction                                  | 127 |
| Photosynthetic Pigments                       | 128 |
| The Chloroplast                               | 129 |
| Photosystems                                  | 130 |
| Light-Dependent Reactions—The Light Reactions | 130 |

|                                      |     |
|--------------------------------------|-----|
| Photorespiration                     | 133 |
| C-4 Photosynthesis                   | 133 |
| CAM Plants                           | 135 |
| Multiple-Choice Questions            | 136 |
| Answers to Multiple-Choice Questions | 139 |
| Free-Response Question               | 141 |
| Typical Free-Response Answer         | 141 |

## 7 Cell Division 143

|                                      |     |
|--------------------------------------|-----|
| Introduction                         | 143 |
| The Cell Cycle                       | 144 |
| Cell Division and Cancerous Cells    | 147 |
| Meiosis                              | 147 |
| Meiosis and Genetic Variation        | 150 |
| The Cell Cycle                       | 150 |
| Multiple-Choice Questions            | 151 |
| Answers to Multiple-Choice Questions | 155 |
| Free-Response Question               | 157 |
| Typical Free-Response Answer         | 157 |

## 8 Heredity 159

|                                      |     |
|--------------------------------------|-----|
| Introduction                         | 159 |
| Basics of Probability                | 160 |
| Law of Dominance                     | 160 |
| Law of Segregation                   | 161 |
| Monohybrid Cross                     | 161 |
| Backcross or Testcross               | 161 |
| Law of Independent Assortment        | 162 |
| Incomplete Dominance                 | 164 |
| Codominance                          | 165 |
| Multiple Alleles                     | 165 |
| Gene Interactions                    | 166 |
| Sex-Influenced Inheritance           | 168 |
| Linked Genes                         | 168 |
| Sex-linkage                          | 168 |
| Crossover and Linkage Mapping        | 169 |
| The Pedigree                         | 170 |
| X Inactivation—The Barr Body         | 171 |
| Mutations                            | 171 |
| Nondisjunction                       | 173 |
| Extranuclear Inheritance             | 174 |
| Multiple-Choice Questions            | 174 |
| Answers to Multiple-Choice Questions | 179 |
| Free-Response Questions              | 181 |
| Typical Free-Response Answers        | 182 |

## 9 The Molecular Basis of Inheritance 183

|                                         |     |
|-----------------------------------------|-----|
| Introduction                            | 183 |
| The Search for Inheritable Material     | 184 |
| Structure of Nucleic Acids              | 185 |
| DNA Replication in Eukaryotes           | 187 |
| DNA Makes RNA Makes Protein             | 189 |
| Gene Mutation                           | 192 |
| The Genetics of Viruses and Bacteria    | 193 |
| Prions                                  | 197 |
| Transposons                             | 197 |
| The Human Genome                        | 198 |
| Recombinant DNA                         | 198 |
| Cloning Genes                           | 198 |
| Tools and Techniques of Recombinant DNA | 199 |
| Ethical Considerations                  | 201 |
| Multiple-Choice Questions               | 202 |
| Answers to Multiple-Choice Questions    | 207 |
| Free-Response Questions                 | 210 |
| Typical Free-Response Answers           | 210 |

## 10 Classification 215

|                                        |     |
|----------------------------------------|-----|
| Introduction                           | 215 |
| The Three-Domain Classification System | 215 |
| Evolutionary Trends in Animals         | 219 |
| Nine Common Animal Phyla               | 222 |
| Characteristics of Mammals             | 226 |
| Characteristics of Primates            | 227 |
| Multiple-Choice Questions              | 228 |
| Answers to Multiple-Choice Questions   | 230 |
| Free-Response Questions                | 231 |
| Typical Free-Response Answers          | 231 |

## 11 Evolution 233

|                                                                  |     |
|------------------------------------------------------------------|-----|
| Introduction                                                     | 233 |
| Evidence for Evolution                                           | 234 |
| Historical Context for Evolutionary Theory                       | 235 |
| Darwin's Theory of Natural Selection                             | 236 |
| Types of Selection                                               | 237 |
| Sources of Variation in a Population                             | 239 |
| Causes of Evolution of a Population                              | 241 |
| Hardy-Weinberg Equilibrium—Characteristics of Stable Populations | 242 |

|                                      |     |
|--------------------------------------|-----|
| Patterns of Evolution                | 247 |
| Modern Theory of Evolution           | 248 |
| The Origin of Life                   | 249 |
| Multiple-Choice Questions            | 250 |
| Answers to Multiple-Choice Questions | 254 |
| Free-Response Questions              | 256 |
| Typical Free-Response Answers        | 256 |

## 12 Plants 259

|                                      |     |
|--------------------------------------|-----|
| Introduction                         | 259 |
| Classification of Plants             | 260 |
| Bryophytes                           | 260 |
| Tracheophytes                        | 260 |
| Strategies That Enabled Plants to    |     |
| Move to Land                         | 262 |
| Plant Tissue                         | 263 |
| Roots                                | 265 |
| Stems                                | 267 |
| The Leaf                             | 268 |
| Transport in Plants                  | 270 |
| Plant Reproduction                   | 271 |
| Alternation of Generations           | 272 |
| Plant Responses to Stimuli           | 276 |
| Multiple-Choice Questions            | 278 |
| Answers to Multiple-Choice Questions | 282 |
| Free-Response Questions              | 284 |
| Typical Free-Response Answers        | 284 |

## 13 Animal Physiology 287

|                                      |     |
|--------------------------------------|-----|
| Introduction                         | 287 |
| Digestion in Different Animals       | 287 |
| Digestion in Humans                  | 288 |
| Gas Exchange in Different Animals    | 290 |
| Gas Exchange in Humans               | 291 |
| Circulation in Different Animals     | 293 |
| Human Circulation                    | 294 |
| Chemical Signals                     | 297 |
| Temperature Regulation               | 300 |
| Osmoregulation                       | 302 |
| Excretion                            | 302 |
| Nervous System                       | 306 |
| Muscle                               | 311 |
| Multiple-Choice Questions            | 313 |
| Answers to Multiple-Choice Questions | 322 |
| Free-Response Questions              | 325 |
| Typical Free-Response Answers        | 326 |

## 14 The Human Immune System 329

|                                        |     |
|----------------------------------------|-----|
| Introduction                           | 329 |
| Nonspecific Defense Mechanisms         | 329 |
| Specific Defense Mechanisms            | 331 |
| Types of Immunity                      | 335 |
| Blood Groups and Transfusion           | 335 |
| AIDS                                   | 336 |
| Positive Feedback in the Immune System | 336 |
| Other Topics in Immunity               | 336 |
| Multiple-Choice Questions              | 337 |
| Answers to Multiple-Choice Questions   | 340 |
| Free-Response Question                 | 341 |
| Typical Free-Response Answer           | 341 |

## 15 Animal Reproduction and Development 343

|                                      |     |
|--------------------------------------|-----|
| Introduction                         | 343 |
| Asexual Reproduction                 | 343 |
| Sexual Reproduction                  | 344 |
| Embryonic Development                | 349 |
| Factors that Influence Embryonic     |     |
| Development                          | 352 |
| Multiple-Choice Questions            | 354 |
| Answers to Multiple-Choice Questions | 357 |
| Free-Response Questions              | 359 |
| Typical Free-Response Answers        | 359 |

## 16 Ecology 361

|                                      |     |
|--------------------------------------|-----|
| Introduction                         | 361 |
| Properties of Populations            | 361 |
| Population Growth                    | 364 |
| Community Structure and Population   |     |
| Interactions                         | 366 |
| Energy Flow and Primary Production   | 367 |
| Energy Flow and the Food Chain       | 368 |
| Ecological Succession                | 370 |
| Biomes                               | 370 |
| Chemical Cycles                      | 373 |
| Humans and the Biosphere             | 374 |
| Multiple-Choice Questions            | 377 |
| Answers to Multiple-Choice Questions | 382 |
| Free-Response Questions              | 384 |
| Typical Free-Response Answers        | 384 |

# 17 Animal Behavior 387

|                                      |     |
|--------------------------------------|-----|
| Introduction                         | 387 |
| Fixed Action Pattern                 | 387 |
| Learning                             | 387 |
| Social Behavior                      | 389 |
| Multiple-Choice Questions            | 390 |
| Answers to Multiple-Choice Questions | 392 |
| Free-Response Question               | 394 |
| Typical Free-Response Answer         | 394 |

## LABORATORY SECTION

# 18 Laboratory Review 397

|                                                           |     |
|-----------------------------------------------------------|-----|
| Graphing                                                  | 397 |
| Designing an Experiment                                   | 399 |
| Lab 1: Diffusion and Osmosis                              | 399 |
| Lab 2: Enzyme Catalysis                                   | 402 |
| Lab 3: Mitosis and Meiosis                                | 403 |
| Lab 4: Plant Pigments and Photosynthesis                  | 405 |
| Lab 5: Cell Respiration                                   | 407 |
| Lab 6: Molecular Biology                                  | 409 |
| Lab 7: Genetics—The Fruit Fly                             | 411 |
| Lab 8: Population Genetics and Evolution                  | 412 |
| Lab 9: Transpiration                                      | 413 |
| Lab 10: Physiology of the Circulatory System              | 414 |
| Lab 11: Animal Behavior                                   | 415 |
| Lab 12: Dissolved Oxygen and Aquatic Primary Productivity | 416 |
| Multiple-Choice Questions                                 | 417 |
| Answers to Multiple-Choice Questions                      | 420 |

## EXTRA PREPARATION FOR THE AP EXAM

# 19 Five Themes to Help You Write a Great Essay 425

|                                       |     |
|---------------------------------------|-----|
| Energy Transfer                       | 425 |
| Relationship of Structure to Function | 426 |
| Regulation                            | 427 |
| Interdependence of Nature             | 427 |
| Evolution                             | 428 |

# 20 Learn How to Grade an Essay 429

|                     |     |
|---------------------|-----|
| Introduction        | 429 |
| Sample Essay A      | 429 |
| Analysis of Essay A | 430 |
| Sample Essay B      | 430 |
| Analysis of Essay B | 431 |

## PRACTICE TESTS

# 21 AP Biology Model Test 1 437

|                           |     |
|---------------------------|-----|
| Multiple-Choice Questions | 437 |
| Reading Period            | 460 |
| Writing Period            | 461 |
| Answer Key                | 462 |
| Answer Explanations       | 463 |

# 22 AP Biology Model Test 2 481

|                           |     |
|---------------------------|-----|
| Multiple-Choice Questions | 481 |
| Reading Period            | 506 |
| Writing Period            | 507 |
| Answer Key                | 509 |
| Answer Explanations       | 510 |

## APPENDICES AND GLOSSARY

### Appendices 531

|                              |     |
|------------------------------|-----|
| Bibliography                 | 531 |
| Measurements Used in Biology | 533 |
