Introduction	1
I. Experimental General Rules	1
II. Experiment Report Formats	8
III. Variables in the Experiment	9
Experiments	11
Experiment 1 Introduction to the Microscope Lab Activity	11
Experiment 2 The Structure of the Plant Cell	16
Experiment 3 Mitosis of the Plant Cell	30
Experiment 4 Mature Tissues of the Plant Cell	37
Experiment 5 The Structure of the Root	48
Experiment 6 The Structure of the Stem	57
Experiment 7 The Leaf Structures and Organ Modifications	70
Experiment 8 The Anatomic Structure of Flowers	81
Experiment 9 Seeds and Seedlings	93
Experiment 10 Seed Plants: The Whole Plant and Vegetative Structure	102
Experiment 11 Plant Propagation	112
Experiment 12 Fruit Types and Classification of Fruits	119
Experiment 13 Guttation Demonstration	129
Experiment 14 The Lower Vascular Plant Divisions: The Fern Allies	131
Experiment 15 Adaptation of Plants	136
