PREFACE 1

ACKNOWLEDGMENTS 2

CHAPTER I INTRODUCTION: GREGARINES AMONG APICOMPLEXA 7

The high morphological diversity of the vegetative stages of gregarine trophozoites 12

Schizogony and taxonomy of gregarines 13

Life cycles of gregarines 14

- A. Life cycle of a Eugregarine: *Lecudina tuzetae* 14
- B. Life cycle of an Archigregarine: *Selenidium pendula*, the type species 18
- C. Life cycle of a Neogregarine: *Mattesia oryzaephili* 18

Bibliography 21

CHAPTER II BIOLOGY OF GREGARINES AND THEIR HOST-PARASITE INTERACTIONS 25

II.1 *Biology of gregarines* 26

II.1.1 Cell and molecular organization of vegetative gregarines: the trophozoites 26

II.1.1.1 Cell and molecular organization of the cortex of trophozoites: the epicyte 26

II.1.1.2 Cytoskeleton and cell motility 54

II.1.1.3 Diversity in nutrition: cell surface, mucron, epimerite 71

II.1.1.4 Cytoplasmic organelles of trophozoites 87

II.1.2 Syzygy and cell recognition between the gamonts 102

II.1.2.1 Types of syzygy 102

II.1.2.2 Syzygy with multiple associations 105

II.1.2.3 Cell junctions between gamonts in syzygy 106

II.1.2.4 Cell recognition and sexual differences between gamonts 108

II.1.3	Biology and cell organization of gregarines during gamogony	110
II.1.3.1	Rotational movements and secretions during cyst formation	110
II.1.3.2	Syncytial nuclear divisions	112
II.1.3.3	Cellularization	116
II.1.3.4	Gametes and fertilization	118
II.1.3.5	Centriole/basal body in Eukaryotes and the MTOC/basal body structures in gregarines	133
II.1.3.6	Abnormal encystment: parthenogenesis?	135
II.1.4	Biology and cell organization of gregarines during sporogony	136
II.1.4.1	Zygote, meiosis and metagamic mitosis	136
II.1.4.2	Secretion of the sporoblast wall and cytoplasmic events within the sporoblast	139
II.1.4.3	Biogenesis of sporozoites	141
II.1.4.4	Importance of spore structures in taxonomy of Gregarines	144
II.1.4.5	Dissemination of the gregarine spores	144
II.1.5	Transition from sporozoite to trophozoite	150
II.2	<i>Diversity of host-parasite interactions</i>	158
II.2.1	Behaviour of gregarines	158
II.2.1.1	Habitat	158
II.2.1.2	Host specificity	160
II.2.1.3	Effects of gregarines on their hosts	161
II.2.2	Electrophysiological properties of the cortical membranes in gregarine trophozoites	162
II.2.3	Endosymbionts and hyperparasitemia with Microsporidia	162
II.2.3.1	Bacteria	162
II.2.3.2	Microsporidia	162
II.2.4	Experimental control of gregarine life cycles	172
II.2.4.1	Marine gregarines	172
II.2.4.2	Terrestrial gregarines	173
II.2.5	Relationships between host and parasite life cycles and chronology of gregarine life cycles	173
II.2.5.1	Marine gregarines	173
II.2.5.2	Terrestrial gregarines	175
<i>Bibliography</i>		178

CHAPTER III MARINE GREGARINES 197

III.1	<i>General presentation</i>	197
III.1.1	Definition of Aseptatorina and Septatorina	197
III.1.2	Intermediates between the Aseptatorina and Septatorina	198
III.1.3	Gregarines of Polychaeta and other marine Lophotrochozoa	200

III.1.4	Gregarines of marine Acoela, Nemertodermatida flatworms, and Chaetognatha	203
III.1.5	Gregarines in the marine Ecdysozoa: crustaceans	203
III.1.6	Gregarines of Echinodermata and Hemichordata: the marine Deuterostomia Xenambulacria	205
III.1.7	Gregarines of Tunicata: the marine Deuterostomia Urochordata	205
III.2	<i>Archigregarinorida</i> Grassé, 1953: the <i>Archigregarines</i>	206
III.3	<i>Eugregarinorida</i> Léger, 1900	240
III.3.1	Eugregarinida Aseptatorina Chakravarty, 1960	240
III.3.1.1	Coelomic Eugregarinorida Aseptatorina	240
III.3.1.2	Intestinal Eugregarinorida Aseptatorina	266
III.3.2	Eugregarinida Septatorina Lankester, 1885	325
<i>Bibliography</i>		355

VOLUME II

CHAPTER IV SYSTEMATICS OF TERRESTRIAL AND FRESH WATER

GREGARINES 377

Introduction 377

Classification - diagnosis of families 377

Order Eugregarinorida Léger, 1900 377

Suborder ASEPTATORINA Chakravarty, 1960 378

Suborder SEPTATORINA Lankester, 1885 380

Order Neogregarinorida Grassé, 1953 (*Schizogregarinida* Léger, 1900) 389

IV.1 *Gregarines of Platyhelminthes: Turbellaria* 394

IV.2 *Gregarines of Annelida: Clitellata* 398

IV.2.1 Gregarines of Hirudinea 398

IV.2.2 Gregarines of Oligochaeta 399

IV.3 *Gregarines of Chelicerata: Arachnida* 427

IV.3.1 Gregarines of Acari (Oribatida) 428

IV.3.2 Gregarines of Opiliones 437

IV.4 *Gregarines of Myriapoda* 436

IV.5 *Gregarines of Hexapoda: Entognatha, Insecta* 467

IV.5.1	Gregarines of Entognatha	467
IV.5.2	Gregarines of primitive insects	469
IV.5.2.1	Gregarines of Archaeognatha	469
IV.5.2.2	Gregarines of Zygentoma	472
IV.5.3	Gregarines of Odonata	474
IV.5.4	Gregarines of Ephemeroptera	488
IV.5.5	Gregarines of Blattaria	492
IV.5.6	Gregarines of Isoptera	498
IV.5.7	Gregarines of Plecoptera	504
IV.5.8	Gregarines of Orthoptera	506
IV.5.9	Gregarines of Dermaptera	530
IV.5.10	Gregarines of Embioptera	530
IV.5.11	Gregarines of Psocoptera	532
IV.5.12	Gregarines of Hemiptera	533
IV.5.13	Gregarines of Coleoptera	536
IV.5.14	Gregarines of Neuroptera (= Nevroptera)	630
IV.5.15	Gregarines of Raphidioptera	630
IV.5.16	Gregarines of Hymenoptera	631
IV.5.17	Gregarines of Mecoptera	634
IV.5.18	Gregarines of Siphonaptera	635
IV.5.19	Gregarines of Diptera	638
IV.5.20	Gregarines of Trichoptera	654
IV.5.21	Gregarines of Lepidoptera	664
