Preface

vii

Part I: Plants Secondary Metabolites

1. Introduction	3
2. Alkaloids	15
3. Alpha Amylase Inhibitor	33
4. BOAA (Lathyrus)	67
5. Carotenoids	85
6. Chymotrypsin	95
7. Flavonoids	103
8. Glycosides	117
9. Gossypol	123
10. Non-protein Amino Acids	127
11. Oxalic Acid	145
12. Phytic Acid	151
13. Phytoestrogens	165
14. Polyphenols	175
15. Saponin	189

16. Steroids	217
17. Tannins	233
18. Terpenoids	321
19. Trypsin Inhibitor	325
20. Potential Health Benefits and Problems	339

Part II: Plant Pigments

21. General Biological Pigment	377
22. Adaptive Colouration	387
23. Anthocyanins	405
24. Betalain	419
25. Bioluminescence	427
26. Carotenoids	437
27. Chlorophyll	447
28. Chromatophore	465
29. Melanin	477
30. Photo-Protective Pigments	491
31. Lighting and Physiology	499
32. Tetrapyrroles	523
Index	537
