

Contents

<i>Preface</i>	<i>v</i>
1. History of Microbiology	1
2. Basic Microbiology and Microbial Techniques	37
3. Biochemistry and Microbial Techniques	123
4. Microbial Physiology	147
5. Microbial Genetics	161
6. Immunology and Medical Microbiology	179
7. Food and Water Microbiology	225
8. Microbial Diversity	253
9. General Plant Pathology and Biological Control	289
10. Environmental Microbiology	309
11. Soil Microbiology	319
12. Industrial Microbiology	361
