
Contents

<i>Foreword</i>	<i>v</i>
<i>Preface</i>	<i>vii</i>
1. Reactive Oxygen Species: Generation, Scavenging and their Role in Cell Signalling in Plants	1
<i>Praduman Yadav, Sunil Kumar, Sandeep Kumar, Md. Sharif Baba and Iyln Murthy</i>	
2. Calcium Mediated Pathogen Defense System	37
<i>Manu Pratap Gangola</i>	
3. Transcription Factors in Abiotic Stress Tolerance	49
<i>Ranjit Singh Gujjar</i>	
4. MAPK Signaling Modules in Stress	69
<i>K. Prabhakara Rao, Monika Jaggi, K. Sarala and T.G.K. Murthy</i>	
5. Plant Hormones and Stress	89
<i>Vikender Kaur, Anita Kumari and Sunder Singh</i>	
6. Plant Stress Regulation	117
<i>R.S. Pal, P.K. Agrawal, J.C. Bhatt and Praduman Yadav</i>	
7. Salinity Stress in Plants	137
<i>Reena Devi and Veena Jain</i>	

8. Recent Advances in <i>Populus euphratica</i> in Relation to Salinity Stress	171
<i>Vishnu Dayal Rajput and Chen Yanning</i>	
9. Chilling Stress Tolerance in Plants: Physiology and Mechanisms	185
<i>Ashok Kumar Yadav, Somu Kaundal, Akhil Sharma and Sanatsujat Singh</i>	
10. Heat Stress Response in Plants	201
<i>Torit Baran Bagchi and Soham Ray</i>	
11. Drought Tolerance in Crops	219
<i>Anup Singh</i>	
12. Aluminium Stress in Crop Plants	237
<i>Ana Luisa Garcia-Oliveira, Subhash Chander, Juan Barcelo and Charlotte Poschenrieder</i>	
13. An Insight into Plant Growth and Metabolism in Relation to Hexavalent Chromium	265
<i>Punesh Sangwan and Vinod Kumar</i>	
14. Waterlogging Stress: An Overview	283
<i>Ruchi Bansal and Ram Swaroop Jat</i>	
15. Anthropogenic Induced Stress and its Impact on Plants	297
<i>Subodh Kr. Bishnoi and Naresh Kr. Yadav</i>	
16. Breeding for Abiotic Stress Tolerance in Crop Plants	329
<i>H.P. Meena, Naresh Kumar Bainsla and D.K. Yadav</i>	
17. Breeding for Resistance to Biotic Stresses in Plants	379
<i>Naresh Kumar Bainsla and H.P. Meena</i>	
18. Transgenic Approaches for Abiotic Stress Tolerance in Plants	413
<i>B. Usha Kiran and M. Sujatha</i>	
19. Transgenic Approaches for Biotic Stress Tolerance in Plants	445
<i>K. Lakshmi, C. Appunu, Ravinder Kumar, M.R. Meena and Deepak Kumar Yadav</i>	
20. Advances in Biotechnology for Development of Submergence Tolerance in Crops	461
<i>Nikhil Khurana and Jitender Kumar</i>	

21. Proteomic Perspectives on Understanding Plant Stress Response	473
<i>Prathap Reddy Kallamadi, Kamakshi Dandu, Sudheendra Hebbar, Pardeep Kumar and Ramesh Bellamkonda</i>	
22. Role of Molecular Markers for Improvement of Stress Tolerance in Crops	507
<i>P. Kadirvel, S. Senthilvel and S. Geethanjali</i>	
<i>Index</i>	539
