## SYSTEMATIC AND DESCRIPTIVE PART 209

### FIRST SUB-CLASS — PALAEICHTHYES

|                               |     |
|-------------------------------|-----|
| First Order — Chondropteryhii | 210 |
| I. <i>Plagiostomata</i>       | 210 |
| A. <i>Selachoidei</i> —Sharks | 210 |
| B. <i>Batoidei</i> —Rays      | 223 |
| II. <i>Holocephala</i>        | 232 |
| Second Order—Ganoidei         | 233 |
| I. <i>Placodermi</i>          | 233 |
| II. <i>Acanthodini</i>        | 235 |
| III. <i>Dipnoi</i>            | 235 |
| IV. <i>Chondrostei</i>        | 239 |
| V. <i>Polypteroidei</i>       | 241 |
| VI. <i>Pycnodontoidei</i>     | 242 |
| VII. <i>Lepidosteoidei</i>    | 243 |
| VIII. <i>Amioidei</i>         | 248 |

### SECOND SUB-CLASS—TELEOSTEI

|                                     |     |
|-------------------------------------|-----|
| First Order—Acanthopterygii         | 0   |
| I. <i>A. perciformes</i>            | 249 |
| II. <i>A. beryciformes</i>          | 277 |
| III. <i>A. kurtiformes</i>          | 280 |
| IV. <i>A. polynemiformes</i>        | 280 |
| V. <i>A. sciaeniformes</i>          | 281 |
| VI. <i>A. xiphiiformes</i>          | 284 |
| VII. <i>A. trichiuriformes</i>      | 285 |
| VIII. <i>A. cotto-scombriformes</i> | 288 |
| IX. <i>A. gobiiformes</i>           | 317 |
| X. <i>A. blenniiformes</i>          | 321 |
| XI. <i>A. mugiliformes</i>          | 326 |

|                                                 |     |
|-------------------------------------------------|-----|
| XII. <i>A. gastrosteiformes</i>                 | 329 |
| XIII. <i>A. centrisciformes</i>                 | 332 |
| XIV. <i>A. gobiesociformes</i>                  | 333 |
| XV. <i>A. channiformes</i>                      | 335 |
| XVI. <i>A. labyrinthibranchii</i>               | 335 |
| XVII. <i>A. lophotiformes</i>                   | 338 |
| XVIII. <i>A. taeniiformes</i>                   | 338 |
| XIX. <i>A. notacanthiformes</i>                 | 340 |
| Second Order—Acanthopterygii Pharyngognathi     | 341 |
| Third Order—Anacanthini                         | 349 |
| I. <i>A. gadoidei</i>                           | 349 |
| II. <i>A. pleuronectoidei</i>                   | 359 |
| Fourth Order—Physostomi                         | 363 |
| Fifth Order—Lophobranchii                       | 435 |
| Sixth Order—Plectognathi                        | 439 |
| THIRD SUB-CLASS—CYCLOSTOMATA                    | 444 |
| FOURTH SUB-CLASS—LEPTOCARDII                    | 448 |
| Appendix                                        | 449 |
| Directions for Collecting and Preserving Fishes |     |
| Index                                           | 456 |
