

Contents

Professor A.K. Bhatnagar	v
Foreword	vii
Preface	xv
Contributors	xvii
1. Reproductive Biology: An Important Discipline of Plant Sciences	1
<i>Namrata Sharma and Gazala Jaffri Mir</i>	
2. A Molecular Genetic Approach Elucidates Complex Plant Reproductive Processes	7
<i>C.P. Malik and Ritesh Kaur</i>	
3. Recruitment Limitation: A Major Driver for Species Vulnerability	69
<i>K.R. Shivanna</i>	
4. Phenological Implications for the Conservation of Forest Trees	90
<i>Jose Kallarackal and R. Renuka</i>	
5. Techniques Involved in Reproductive Biology: Newer Insights and Future Perspectives	110
<i>Veenu Kaul and Shweta Saroop</i>	
6. Sterility in Plants	141
<i>Seema Chauhan and S.V.S. Chauhan</i>	
7. Apomixis in Angiosperms	206
<i>Anaj Dwivedi, Shashi, C. Mahalakshmi and Vishnu Bhat</i>	
8. Love in the Air: Wind Pollination - Ecological and Evolutionary Considerations	234
<i>Yash Mangla and Charu Khosla Gupta</i>	
9. Emerging Trends in Endosperm Biology	246
<i>Indradeep Kaur</i>	
10. Reproductive Biology in Relation to Conservation: Case History of <i>Artemisia maritima</i> L.	287
<i>Namrata Sharma, Jyoti Parihar, Uzma Hamal and Irfanul Alamad Hamal</i>	

11. An Appraisal on <i>In Vitro</i> Conservation and Biotechnological Interventions in <i>Spilanthes acmella</i> Murr.	299
<i>Mithilesh Singh and Rakhi Chaturvedi</i>	
12. Genetic Control of Mitosis and Meiosis in Angiosperms	320
<i>Satyawada Rama Rao, Marlykynti Hynniewota, Anju Shamurailatpam and Harshadha Purohit</i>	
13. Role of Reproductive Biology in Conservation of Plants	329
<i>Pooja Gokhale Sinha and Ajit Kumar Kavathekar</i>	
14. Serpentinophytes: Resource Survey and Conservation for Potential Applications in Biotechnology	354
<i>Arundhati Pal and A. K. Paul</i>	
15. Pollination Ecology of <i>Cullenia exarillata</i> A. Robyns, a Key Food Plant in the Tropical Evergreen Forest Ecosystem of the Western Ghats	389
<i>S. Suresh, S. Anilkumar and T.S. Nayar</i>	
16. Reproductive Success of Angiosperms in Response to Climate: An Assessment	401
<i>Monika Koul and Romila Rawat Bisht</i>	
17. Arbuscular Mycorrhizal Fungi: Potential Role in Conservation of Endangered Plants	424
<i>Heikham Evelin, Esha Sharma and Rupam Kapoor</i>	
18. Genetic Diversity in Various Seed Spices and Medicinal Plants Using Different Molecular Markers	438
<i>Amandeep Hora, Ritesh Kaur, Nisha Pareek, Staffi Grover and C. P. Malik</i>	
Index	465
