| <i>List of Contributors</i>                                                       | v   |
| <i>Acknowledgments</i>                                                            | vii |
| <i>Foreword</i>                                                                   | xi  |
| Chapter 1 Introduction — DNA Repair is Integrated<br>with Many Cellular Processes | 1   |
| <i>Hans E. Krokan, Bodil Kavli and Geir Slupphaug</i>                             |     |
| Chapter 2 The Earth, Life and Genomic Uracil                                      | 15  |
| <i>Hans E. Krokan, Bodil Kavli, Geir Slupphaug<br/>and Finn Drabløs</i>           |     |
| Chapter 3 Routes to Uracil in DNA                                                 | 47  |
| <i>Geir Slupphaug, Bodil Kavli and Hans E. Krokan</i>                             |     |
| Chapter 4 Enzymology of Genomic Uracil Repair                                     | 89  |
| <i>Hans E. Krokan, Bodil Kavli, Antonio Sarno<br/>and Geir Slupphaug</i>          |     |
| Chapter 5 Viral Uracil — Uracil DNA Glycosylases<br>and dUTPases                  | 127 |
| <i>Hans E. Krokan, Bodil Kavli and Geir Slupphaug</i>                             |     |
| Chapter 6 Genomic Uracil and Immunity                                             | 153 |
| <i>Bodil Kavli and Geir Slupphaug</i>                                             |     |

|           |                                                                                                             |     |
|-----------|-------------------------------------------------------------------------------------------------------------|-----|
| Chapter 7 | Genomic Uracil and Cancer                                                                                   | 183 |
|           | <i>Antonio Sarno, Pål Setrom, Bodil Kavli<br/>and Henrik Sahlin Pettersen</i>                               |     |
| Chapter 8 | Quantification of Genomic Uracil                                                                            | 245 |
|           | <i>Antonio Sarno and Cathrine Broberg Vågbo</i>                                                             |     |
| Chapter 9 | Genomic Uracil — Valuable Tool in Molecular<br>Biology but Inherent Problem in Sequencing<br>of Ancient DNA | 275 |
|           | <i>Geir Slupphaug and Hans E. Krokan</i>                                                                    |     |
|           | <i>Index</i>                                                                                                | 287 |
