

Digital Tools for Your Success

**Save time with auto-graded assessments.
Gather powerful performance data.**

McGraw-Hill ConnectPlus® Microbiology provides online presentation, assignment, and assessment solutions, connecting your students with the tools and resources they'll need to achieve success.

Homework and Assessment

With ConnectPlus Microbiology, you can deliver auto-graded assignments, quizzes, and tests online. A robust set of interactive questions and activities using high-quality art from the textbook and animations is presented. Assignable content is available for every Learning Outcome in the book and is categorized according to the **ASM Curriculum Guidelines**. As an instructor, you can edit existing questions and author entirely new problems.

Instructor Resources

Customize your lecture with tools such as PowerPoint® presentations, animations, and editable art from the textbook. An instructor's manual for the text and lab manual as well as answer keys to in-text questions save you time in developing your course.

eBook

ConnectPlus Microbiology provides students 24/7 online access to a media-rich version of the book, allowing seamless integration of text, media, and assessments.

Detailed Reports

Track individual student performance—by question, assignment, or in relation to the class overall—with detailed grade reports. Integrate grade reports easily with Learning Management Systems (LMS), such as WebCT and Blackboard—and much more.

Lecture Capture

McGraw-Hill Tegrity® records and distributes your class lecture with just a click of a button. Students can view anytime, anywhere via computer or mobile device. Indexed as you record, students can use keywords to find exactly what they want to study.

Digital Tools for Your Success

McGraw Hill LearnSmart™

A diagnostic, adaptive learning system to increase preparedness.

Now Available for the Ninth Edition!

McGraw-Hill LearnSmart™ is an adaptive learning system designed to help students learn faster, study more efficiently, and retain more knowledge for greater success. LearnSmart assesses a student's knowledge of course content through a series of adaptive questions. It pinpoints concepts the student does not understand and maps out a **personalized study plan** for success. This innovative study tool also has features that allow instructors to see exactly what students have accomplished and a built-in assessment tool for graded assignments.

Visit www.mhlearnsmart.com for a demonstration.

Laboratory Exercises in Microbiology, Ninth Edition

John P. Harley has revised this laboratory manual to accompany the ninth edition of *Prescott's Microbiology*. The class-tested exercises are modular to allow instructors to easily incorporate them into their course. This balanced introduction to each area of microbiology now also has accompanying Connect content for additional homework

and assessment opportunities. In addition, all artwork from the lab manual is now available through the Instructor Resources in Connect for incorporation into lectures.

create

With McGraw-Hill Create™, you can easily rearrange chapters, combine material from other content sources, and quickly upload content you have written, such as your course syllabus or teaching notes. Find the content you need in Create by searching through thousands of leading McGraw-Hill textbooks. Arrange your book to fit your teaching style. Create even allows you to personalize your book's appearance by selecting the cover and adding your name, school, and course information. Order a Create book and you'll receive a complimentary print review copy in three to five business days or a complimentary electronic review copy (eComp) via e-mail in minutes. Go to www.mcgrawhillcreate.com today and register to experience how McGraw-Hill Create empowers you to teach your students your way.
