

Preface

Biological diversity and sustainable development is an upcoming area of study which is undergoing rapid development in diverse sectors. This book includes interesting overviews and innovative case studies primarily concentrated on the socio-economic effects of the accurate management of the biodiversity of ecosystems. It also discusses the useful incorporation of human activities and environmental responses. Environmental, medical and historical features of sustainable development are also elucidated. This book consists of researches written by prominent experts, offering the reader a clear and broad view of the current situation of our planet.

The researches compiled throughout the book are authentic and of high quality, combining several disciplines and from very diverse regions from around the world. Drawing on the contributions of many researchers from diverse countries, the book's objective is to provide the readers with the latest achievements in the area of research. This book will surely be a source of knowledge to all interested and researching the field.

In the end, I would like to express my deep sense of gratitude to all the authors for meeting the set deadlines in completing and submitting their research chapters. I would also like to thank the publisher for the support offered to us throughout the course of the book. Finally, I extend my sincere thanks to my family for being a constant source of inspiration and encouragement.
