

# Preface

---

The first edition of the "*Laboratory Manual of Biochemistry*" primarily designed for undergraduate and post-graduate students of Biochemistry, Horticulture and Biotechnology. Methods used with flow chart that can be understood easily. Although we have taken enough care to include operational details, it is necessary for the individual scientist and user to get conversant with the method proper.

May we request the users of this publication, scientists and scholars, to send us feedback with a view to effective improvement in subsequent editions, because it is impossible to cover all topics of biochemical analysis in one book.

We are very grateful to Vice-Chancellor of N.D. University of Agriculture & Technology, Kumarganj, Faizabad for having given us the opportunity to write the book. We would like to thanks to our Colleagues in the Department. We would like to express my thanks to Mr. Surya Mittal and Dr. B.B. Singh and staff of Astral International Pvt. Ltd. for their constant and willing help.

Kumarganj, Faizabad
