

INDUSTRIAL POLYSACCHARIDES

The Impact of Biotechnology and Advanced Methodologies

Edited by **S.S. Stivala**, Stevens Institute of Technology, Hoboken, NJ, USA, **V. Crescenzi**, Università Degli Studi di Roma, "La Sapienza," Rome, Italy, and **I.C.M. Dea**, The British Food Manufacturing Industries Research Association, Surrey, UK.

This book highlights recent developments in polysaccharides spurred by advances in biotechnology. Experts in the field describe the new biomass polysaccharides, and their medicinal, food and industrial applications.
