Anthropology Today CD-ROM

Take a comprehensive and enlightening tour through each of the four fields of anthropology with this CD-ROM. **FREE with every new copy of *Anthropology, Tenth Edition*!**

- **Meet the Scientist** — You'll read interviews with scientists who talk about their field research projects, including project goals, personal anecdotes, and discoveries.
- **Live from the Field** — CNN® broadcast video clips take you on a journey around the world and through explorations of anthropology issues related to research and fieldwork.
- **Interactive Exercises** — Experience the fun of learning by placing fossils correctly on a map, completing historical timelines, labeling skeletons, and much more.
- **Online Research** — Through well-researched links this section helps you prepare for class, complete course assignments, and write research papers.
- **Exploring Further** — Learn about the latest breaking news in anthropology, read essays on agricultural and cultural survival, find facts and advice about anthropology careers ... and explore a wealth of other anthropology resources!

Earthwatch Institute Journal: Diversity in the Age of Globalization

This full-color journal on *Diversity in the Age of Globalization* covers the main subfields of anthropology: cultural, physical, archaeology, and linguistics. This valuable magazine addresses the number one question asked by students like yourself: *What can I do with anthropology today?* You'll see anthropology in action through compelling articles that review recent field research supported by Earthwatch Institute. **FREE with every new copy of *Anthropology, Tenth Edition* during the 2002/2003 academic year!**

Enhance your learning with:

Study Guide and Workbook

Boost your understanding with this essential study companion. The Study Guide and Workbook includes chapter synopses, chapter goals, lists of key terms and people, review questions to guide you in your reading of chapter material, and exercises that involve constructing charts and locating cultures on maps. Each chapter also includes practice tests consisting of fill-in-the-blank, multiple-choice, matching, and essay questions. ISBN 0-534-61020-2
