Contents

Mechanisms of Reovirus Bloodstream Dissemination

Karl W. Boehme, Caroline M. Lai, and Terence S. Dermody

Molecular Biology and Epidemiology of Dianthoviruses

Tetsuro Okuno and Chuji Hiruki

Viral and Nonviral Elements in Potexvirus Replication and Movement
and in Antiviral Responses

Mi-Ri Park, Jang-Kyun Seo, and Kook-Hyung Kim

Influenza Virus Transcription and Replication

Jaime Martín-Benito and Juan Ortin

The Molecular Biology of Ikarviruses

*Vicente Pallas, Frederic Aparicio, Mari C. Herranz, Jesus A. Sanchez-Navarro,
and Simon W. Scott*

Genetic Variation and HIV-Associated Neurologic Disease

Satinder Dahiya, Bryan P. Irish, Michael R. Nonnemacher, and Brian Wigdahl
